## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Managed financial data integrity and provided essential checks and balances for project cost control, analysing spending trends to ensure adherence to budgetary constraints.
- Initiated purchase order requests to the ProcOps team, monitoring progress and addressing cross-functional partner queries to ensure timely and accurate PO execution.
- Coordinated with PSS to ensure purchase order accuracy, including dates, amounts, and descriptions, facilitating easier forecasting and updates within the SFM tool.
- Facilitated the gathering and input of forecast information from various teams, maintaining the forecast baseline within the SFM tool for accurate financial tracking.
- Supported month-end closing by identifying and booking accruals in adherence to corporate finance guidelines, following up on vendor invoices for timely actualization of spend.
- Generated weekly reports to Engineering Managers, identifying key trends in project spend and providing backup documentation for large-spend forecasting and tracking.
- Performed inventory counts and supported material transactions, including shipment packing, following established Standard Operating Procedures (SOPs) for operational efficiency.

## SKILLS

**Project Controls** – Financial Data Management, Cost Analysis, Schedule Tracking, Budget Adherence, Forecasting, Accruals, Purchase Orders, Procurement Support, Financial Reporting

**Tools & Technologies** – SFM Tool, Microsoft Excel, Microsoft Office Suite, Jira, Confluence

**Financial Operations** – Month-End Closing, Invoice Processing, Vendor Management, Spend Analysis, Operational Support

**Data Analysis & Reporting** – Trend Identification, Weekly Reporting, Data Interpretation, KPI Tracking, SLA Management

**Process & Operations** – SOP Adherence, Inventory Management, Material Transactions, Cross-Functional Collaboration, Change Management

## PROJECTS

### Project Financial Data Management System

- Developed a system for tracking project expenditures by consolidating data from multiple sources, ensuring accuracy in financial reporting for engineering managers.
- Implemented automated checks within Excel to validate purchase order details against project budgets, reducing errors by approximately 15% and improving forecast accuracy.
- Created a structured process for accrual identification and booking, collaborating with finance and vendor teams to ensure timely recording of outstanding liabilities.

### Procurement Workflow Optimization Initiative

- Streamlined the purchase order request process by mapping key steps and clarifying requirements for the ProcOps team, accelerating average PO turnaround time by 2 days.
- Designed a reporting template for weekly project spend summaries, highlighting key variances and trends for management review and decision-making.
- Documented SOPs for material handling and inventory counts, contributing to a more organized and efficient operational workflow.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
