PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided after-sales technical support for a range of consumer electronics products via chat and hotline channels, resolving an average of **15 customer inquiries per day**.
- Collaborated with key account managers and sales channels to diagnose and resolve technical product issues, ensuring timely resolution for **over 50 key accounts**.
- Documented technical solutions and created product solution decks for **10+ product series**, supporting sales and after-sales service teams.
- Collected and recorded technical feedback and product iteration suggestions from customers and internal teams, contributing to **3 product update cycles**.
- Managed customer service ticket entry and meticulously recorded work details in a **ticketing system**, maintaining a **95% completion rate** for assigned tasks.
- Proactively managed and resolved technical challenges in a fast-paced environment, completing assigned tickets within **defined SLAs**.
- Analyzed product performance data using **MS Excel** and internal tools to identify trends and potential areas for improvement, presenting findings to the product team.

SKILLS

Technical Support – After-sales support, Hotline support, Chat support, Ticket management, Customer service, Problem-solving, Escalation management.

Tools & Software – MS Word, MS Excel, Visio, Jira, Confluence, Splunk, Dynatrace, CloudWatch.

Operating Systems – Linux, Windows.

Programming & Scripting – Python, Java, SQL.

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch).

Methodologies – Agile, Scrum.

PROJECTS

Enterprise Application Support & Automation (HCL Technologies)

- Provided production support for enterprise Java/.NET applications, managing SLAs and responding to P1/P2 incidents using **Splunk** and **Dynatrace**.
- Developed Python scripts to automate ETL processes and scheduled reporting, reducing manual effort by an estimated **20%** for the operations team.
- Performed ad-hoc SQL queries and data validation across PostgreSQL and Oracle databases for troubleshooting and change management activities.

Customer Onboarding & Technical Documentation Suite

- Developed comprehensive technical documentation and user guides for a new line of smart home energy solutions, directly supporting customer onboarding efforts.
- Created interactive demonstrations of product features using **MS PowerPoint** and **Visio** to assist sales teams in pre-sales technical discussions.
- Collected and synthesized technical feedback from early adopters to refine product iteration suggestions, contributing to a more user-friendly product experience.
