HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Translated approved roadmap initiatives into **high-quality, measurable software deliverables** for the D4H platform, ensuring clarity and direction for engineering teams.
- Managed backlog quality and prioritisation for the D4H product, ensuring engineering teams received **clear, actionable, and well-defined requirements** for upcoming sprints.
- Provided timely product direction throughout the delivery lifecycle, resolving day-to-day questions around execution, operations, and implementation for the D4H platform.
- Defined clear **acceptance criteria**, supported testing and quality assurance efforts, and ensured delivered capabilities could be measured post-release.
- Coordinated release readiness activities, including **documentation updates**, release notes, operational preparation, and successful deployment to production environments.
- Applied **AI tools** to accelerate specification writing, backlog grooming, data analysis, and QA acceptance processes, improving team velocity.
- Collaborated with Product Management, Engineering, and Architecture to shape solutions that balanced customer needs, technical constraints, and delivery timelines for the D4H platform.

SKILLS

Product Ownership – Backlog Management, User Stories, Epics, Features, Acceptance Criteria, Release Management, Roadmap Translation, Prioritisation, Stakeholder Management, AI Tools for Specification Writing, Data Analysis, QA Acceptance

Core Technologies – APIs, Data Models, System Architecture, AI Governance, LLM Concepts, RAG, Model Limitations, Prompting

Platform Integration – Identity Management, Data Analytics Platforms, AI Platforms

Software Development Lifecycle – Agile Methodologies, Scrum Ceremonies, Requirements Gathering, Technical Estimation, Code Reviews, Debugging

Tools & Methodologies – Jira, Confluence, Git, Jenkins, Docker, Linux

Data & Analytics – Business Intelligence, Data Visualization, Statistical Analysis, Machine Learning Fundamentals

Programming Languages – Java, Python, SQL

PROJECTS

D4H Product Delivery & AI Integration

- Owned day-to-day product delivery for the D4H platform, translating roadmap initiatives into **epics, features, and user stories**.
- Managed backlog quality and prioritisation, ensuring engineering teams had clear, actionable requirements, and integrated **AI tools** for specification writing and backlog grooming.
- Provided timely product direction and defined clear acceptance criteria, supporting QA and ensuring delivered capabilities were measurable post-release.

Safety-Critical Software Evolution

- Worked closely with Product Management and Engineering to shape solutions for safety-critical software, balancing customer needs with technical constraints.
- Coordinated release readiness including documentation, release notes, and operational preparation for deployments, ensuring a smooth transition to production.
- Applied understanding of AI governance, data handling, and model limitations into product design and acceptance criteria for AI-enhanced features.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
