HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and refined extensive datasets from business stakeholders, translating requirements into actionable data analysis plans for **risk analytics** initiatives.
- Applied **machine learning** and **data mining** methods to derive insights from large datasets, identifying patterns within structured data for strategic decision-making.
- Developed analytical skills using **Python** for Exploratory Data Analysis (EDA), focusing on practical business contexts and risk assessment.
- Created comprehensive reports and presentations detailing data analysis methodologies and findings for senior management and the data science team.
- Acquired and applied advanced analytical techniques using **Tableau** for creating interactive dashboards and visualizations.
- Collaborated with the data science team on **data pre-processing** and refinement tasks, ensuring data integrity and quality for analysis.
- Managed and organized diverse datasets, performing **data modelling** and preparation for subsequent analysis and machine learning applications.

SKILLS

Data Analysis & Machine Learning – Data Mining, Machine Learning, Risk Analytics, Exploratory Data Analysis (EDA), Data Pre-processing, Data Modelling, Statistical Analysis, Regression, Hypothesis Testing

Programming & Scripting – Python, R

Data Visualization & BI Tools – Tableau, Power BI, DAX, Power Query

Databases & Data Warehousing – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing

Cloud & Big Data Concepts – AWS (EC2, S3, Lambda, CloudWatch), Docker, Hadoop, Spark

Development Methodologies & Tools – Agile, Scrum, Jira, Confluence, Git, Jenkins

PROJECTS

Financial Risk Analytics Dashboard Development

- Developed an interactive **Power BI** dashboard to visualize key risk metrics and financial trends for stakeholders, enabling better decision-making.
- Applied **DAX** measures and Power Query for data transformation and complex calculations, integrating data from multiple relational sources.
- Performed **exploratory data analysis** on transaction datasets to identify patterns and anomalies relevant to financial risk assessment.

Customer Transaction Data Analysis & Insights

- Analyzed large-scale customer transaction data using **Python** and **pandas** to extract actionable insights and identify customer behavior patterns.
- Built **ETL pipelines** with Python scripts to clean, transform, and load data from various sources into a centralized data store.
- Utilized **SQL** for data extraction and manipulation from PostgreSQL databases to support analytical requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
