HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the production support and incident response for enterprise applications, addressing P1/P2 incidents and maintaining service level agreements using **Splunk** and **Dynatrace**.
- Automated data extraction and validation processes using **Python** scripting, reducing manual effort by approximately **40%** for recurring reporting tasks.
- Developed and maintained **Java Spring Boot** REST APIs for internal services, implementing new features and resolving defects within an Agile framework.
- Executed ad-hoc queries and managed schema changes in **PostgreSQL** and **MySQL** databases to support data validation and reporting requirements.
- Supported the extraction and verification of batch and process data from production records, applying **ALCOA+** principles to ensure data integrity for downstream analysis.
- Collaborated with Production and MSAT teams to log and follow up on data gaps and discrepancies identified during batch record review, contributing to process improvement.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, managing application configurations and monitoring performance.

SKILLS

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, Docker, Linux, Git

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Observability – Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Methodologies – Agile, Scrum, Change Management

PROJECTS

Production Data Integrity for Pharma Batch Records

- Developed Python scripts to extract and pre-process batch record data, standardizing formats for ingestion into a **Power BI** dashboard used for process monitoring.
- Implemented data validation checks within the scripts to identify and flag inconsistencies against source documents, ensuring adherence to **ALCOA+** principles.
- Collaborated with MSAT and operations teams to refine data extraction templates and address identified discrepancies, improving the accuracy of reported process metrics.

Automated Reporting for Enterprise Systems

- Engineered **Python** ETL pipelines to aggregate data from multiple enterprise systems (e.g., ERP, operational databases) into a centralized data store.
- Created scheduled reports and dashboards using **SQL** and basic data visualization tools to provide operational insights to business stakeholders, reducing manual report generation time by **30%**.
- Managed the deployment and scheduling of these pipelines using **Jenkins** and cron jobs on **Linux** servers, ensuring reliable data delivery.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
