PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and maintained core HR and payroll systems, including **MHR iTrent Payroll** and **SAP SuccessFactors (MWL)**, ensuring data integrity and operational efficiency.
- Managed technical integrations between HR/Payroll systems and enterprise platforms such as **Workforce Software for Time & Attendance**, facilitating seamless data flow and process automation.
- Oversaw technical support and incident resolution for HR technology platforms using **ServiceNow**, addressing user issues and system defects to maintain service levels.
- Planned and executed system upgrades, patches, and release management for HR technology stacks, ensuring up-to-date functionality and security compliance.
- Developed **Python scripts** to automate data extraction and transformation processes for HR reporting, reducing manual effort by an estimated **40%**.
- Implemented and optimized the **Aisera agentic AI platform** to automate HR service workflows, improving employee experience and reducing response times for common queries.
- Wrote **SQL queries** to validate data accuracy and perform ad-hoc analysis on HR and payroll datasets, supporting compliance and operational audits.

SKILLS

HRIS/Payroll Systems – MHR iTrent, SAP SuccessFactors (MWL)

Scripting & Automation – Python, SQL, PowerShell

Integration – APIs, SFTP, Data Transformation

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker

DevOps & CI/CD – Jenkins, Git, Jira, Confluence

Monitoring & Support – Splunk, Dynatrace, ServiceNow

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

PROJECTS

HRIS System Integration and Automation (HCL Technologies)

- Developed a **Python-based ETL pipeline** to extract, transform, and load employee data from a legacy HR system into a new data warehouse for enhanced reporting.
- Designed and implemented **REST APIs** using Java Spring Boot to enable real-time data synchronization between the HRIS and an enterprise ERP system, supporting approximately **500 data exchanges daily**.
- Automated the generation of monthly compliance reports using **SQL** and Python scripting, reducing manual reporting time by **3 days per month**.

Payroll Operations Dashboard Enhancement (HCL Technologies)

- Built interactive dashboards using **Power BI** to visualize transaction flows and identify anomalies in a financial-services operations dashboard, enabling quicker identification of failed payment messages.
- Wrote complex **DAX measures** and performed data modeling within Power BI to support operational alerting and trend analysis for reconciliation workflows.
- Collaborated with business analysts to gather requirements for operational reporting, ensuring the dashboard met the needs of cross-functional teams monitoring transaction processing.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
