PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and enhanced **financial models** and analytical tools to support budgeting, forecasting, and long-term planning processes, improving accuracy by **15%**.
- Partnered with business units to understand financial drivers, identify risks and opportunities, and support commercial decision-making through detailed **performance analysis**.
- Analysed monthly financial performance, preparing clear **variance analysis**, insights, and presentations for senior stakeholders, reducing reporting time by **20%**.
- Drove continuous improvement and supported automation across FP&A; processes, implementing a **Python script** to streamline data aggregation for monthly reports.
- Ensured strong governance, control compliance, and alignment with **audit standards** for financial submissions and reporting cycles.
- Managed the end-to-end **budgeting and forecasting** cycles, ensuring timely and accurate submissions across multiple business units.
- Containerised data processing services with **Docker** and deployed to **AWS EC2** instances, enhancing scalability and reducing deployment times by **30%**.

SKILLS

Financial Analysis – FP&A;, Budgeting, Forecasting, Financial Modelling, Variance Analysis, Performance Analysis, Commercial Decision-Making, Audit Standards

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence, Data Visualisation

Programming & Scripting – Python, SQL, R

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Enterprise Systems – ERP, SAP, Change Management, REST APIs

PROJECTS

Financial Performance Dashboard (MSc Data Analytics)

- Developed an interactive **Power BI** dashboard to visualize key financial metrics, including revenue, expenses, and profitability, for MSc coursework.
- Created complex **DAX measures** and data models to support scenario analysis and trend identification within the financial dataset.
- Automated data extraction and transformation using **Power Query**, reducing manual data preparation time by approximately **40%** for the reporting cycle.

Automated Reporting Pipeline (HCL Technologies)

- Engineered a **Python**-based ETL pipeline to aggregate financial data from multiple PostgreSQL and Oracle databases for scheduled operational reporting.
- Implemented data validation checks and error handling within the pipeline, ensuring the accuracy and integrity of the processed financial data.
- Integrated the pipeline with **Jenkins** for automated scheduling and execution, delivering daily reports to the enterprise business systems support team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
