PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed **Failure Analysis** and **disassembly** on a variety of **Data Center IT Server and Networking Equipment & Components**, adhering to strict safety and security protocols.
- Managed **inventory accuracy** for inbound and outbound **parts**, conducting regular **audits** and ensuring precise record-keeping within the **Warehouse Management System**.
- Executed **Shipping & Receiving** operations, including **Unload, Pick & Pack** of orders and parts for shipment to both local and international sites, meeting defined **service level agreements**.
- Conducted **basic networking equipment removal and installation** as part of the **Failure Analysis** process, ensuring all tasks were performed without deviation from established procedures.
- Participated in team meetings focused on **metric analysis** and achievement of daily/weekly goals, contributing to the continuous improvement of **processing times** for components.
- Collaborated with internal teams such as **Data Center Operatives, Logistics, and Physical Security** to plan and execute priority part testing and delivery.
- Maintained **cleanliness, organization, and safety** of all workspaces according to **5S** principles, ensuring a compliant and efficient lab environment.

SKILLS

Data Center Operations – Failure Analysis, Testing, Repair, Sanitization, Disassembly, Server Equipment, Networking Equipment

Warehouse Management – Shipping & Receiving, Inventory Accuracy, Audits, Parts Disposition, Manual Handling

Logistics & Operations – Pick & Pack, Order Fulfillment, Service Level Agreements, Process Adherence

IT & Networking – Basic Networking Equipment Removal/Installation

Teamwork & Reporting – Metric Analysis, Status Updates, Knowledge Sharing, Best Practices, Earn Trust

PROJECTS

Data Center Equipment Testing and Disposition

- Executed comprehensive **testing protocols** on returned server and networking components, documenting findings and categorizing equipment for repair, refurbishment, or disposal.
- Performed detailed **disassembly** of complex IT hardware, identifying root causes of failure and preparing components for further analysis or salvage, maintaining strict **safety standards**.
- Managed the accurate tracking of over 500 unique component types through the **Warehouse Management System**, ensuring precise inventory counts for all inbound and outbound parts.

Inventory Management and Logistics Support

- Streamlined the **Pick & Pack** process for IT hardware shipments, reducing average order fulfillment time by 18% for both local and international destinations.
- Conducted weekly **inventory audits** on critical server components, identifying and resolving discrepancies to maintain **inventory accuracy** and support operational needs.
- Supported **Shipping & Receiving** operations by unloading, verifying, and logging new inventory, ensuring all items were correctly processed into the system.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
