PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided day-to-day **IT support** to end-users, resolving hardware, software, and network connectivity issues across **Windows** and **macOS** environments.
- Administered and maintained **Microsoft 365** services including user account management, access permissions, and **multi-factor authentication** setup and troubleshooting.
- Supported the administration of **Azure** services, focusing on user account lifecycle management (joiners, movers, leavers) and access control policies.
- Assisted with the implementation and maintenance of **cybersecurity** policies and technical controls, including **patch management** and vulnerability assessments.
- Coordinated with external **IT service providers** to manage support requests, monitor service delivery, and resolve escalated technical issues.
- Managed IT hardware and software assets, maintaining an accurate **IT asset register** and ensuring license compliance for over **150 devices**.
- Supported **IT infrastructure upgrades** and system implementations by assisting with testing, deployment coordination, and post-go-live support activities.

SKILLS

Operating Systems – Windows, Linux, macOS

Cloud Platforms – Azure, AWS

Productivity Suites – Microsoft 365

IT Support Tools – Jira, Confluence, Splunk, Dynatrace

Networking – TCP/IP, DNS, DHCP, VPN

Security – Cybersecurity Principles, Patch Management, Vulnerability Management, Multi-Factor Authentication, Data Protection

PROJECTS

Enterprise IT Systems Support and Enhancement

- Provided production support for enterprise Java and .NET applications, monitoring system health via **Splunk** and **Dynatrace**, and managing P1/P2 incidents to meet SLAs.
- Automated routine operational tasks using **Python scripting**, including data validation checks and scheduled reporting generation for business stakeholders.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for multiple interconnected enterprise systems.

Financial Services Operations Dashboard Upgrade

- Supported a payments operations dashboard for a financial-services client, focusing on transaction monitoring and alerting for failed payment messages.
- Developed **Java Spring Boot** REST APIs for cross-service data exchange, implementing request validation and circuit-breaker patterns for enhanced system resilience.
- Performed ad-hoc data analysis and validation using **SQL** across PostgreSQL and Oracle databases to support reconciliation workflows and audit trail requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
