## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Managed a portfolio of **15+ customer accounts** for the cloud-native ERP platform, serving as their primary technical contact for daily operations.
- Monitored customer health dashboards and system reports using **SQL queries** and internal tooling, identifying and flagging potential issues for **~10-12 accounts** per week.
- Diagnosed and resolved complex customer issues by carefully listening to problems, analyzing system logs via **Splunk**, and collaborating with **support and product teams** to find practical fixes.
- Maintained clear, consistent communication with customers regarding issue progress, ensuring they were informed throughout the resolution lifecycle and **reducing customer query response time by 18%**.
- Documented customer interactions, issues, and actions accurately within the company's **CRM system**, ensuring data integrity for team analysis.
- Identified recurring customer issues and proposed process improvements, contributing to a **15% reduction in support ticket volume** for common problems over a 6-month period.
- Facilitated customer adoption of new features released monthly by providing clear explanations and guidance, ensuring a smooth transition and maximizing feature uptake across the client base.

## SKILLS

**ERP & Business Applications** – Cloud Native ERP, SaaS, Business Software

**Customer Success & Support** – Account Management, Customer Health Monitoring, Issue Diagnosis, Problem Solving, CRM, Customer Interactions, Escalation

**Technical Skills** – SQL, Splunk, Python Scripting, REST APIs, Java Spring Boot, AWS, Docker, Linux

**Communication & Collaboration** – Active Listening, Written Communication, Verbal Communication, Teamwork, Stakeholder Management

**Personal Attributes** – Time Management, Multitasking, Detail-Oriented, Patient, Resilient, Independent Work

## PROJECTS

### Customer Onboarding and Support Framework for ERP Clients

- Developed a structured onboarding process for new enterprise ERP customers, integrating technical setup with functional training and **reducing initial adoption friction by 20%**.
- Created comprehensive documentation and troubleshooting guides for common ERP platform issues, enabling customer self-service and **decreasing reliance on direct support by 12%**.
- Collaborated with the product team to translate customer feedback into actionable requirements for platform enhancements, ensuring the ERP system met evolving business needs.

### Automated Production Monitoring and Alerting Dashboard

- Built a **Python**-based script to aggregate logs from production Java applications, parsing critical events into a centralised dashboard for operational monitoring.
- Integrated the script with **Splunk** to provide real-time alerts for system anomalies, enabling faster incident response for **~50 critical application events** per week.
- Applied **SQL** to query historical log data, identifying performance bottlenecks and contributing to a **10% improvement in application response times**.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
