PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and maintained comprehensive **asset registers** and equipment databases, ensuring data integrity for over 15,000 assets across multiple client projects.
- Coordinated **asset tagging** and verification initiatives within **water and wastewater facilities**, directly supporting field service engineers and project teams.
- Collected, validated, and uploaded **asset information** into **Maximo** and other client systems, improving data accuracy by an estimated **20%**.
- Produced detailed **reports**, data summaries, and equipment records using **Microsoft Excel** and SQL queries to support service operations.
- Collaborated with technical personnel to verify equipment information, identifying and resolving discrepancies across disparate **datasets** and multiple information sources.
- Supported continuous improvement of business systems and **information management processes**, contributing to streamlined workflows for asset data handling.
- Containerised an internal data validation service using **Docker** and deployed it to an **AWS EC2** instance, facilitating repeatable data processing tasks.

SKILLS

Core Systems – Maximo, ERP, CMMS, SAP, PEMAC, Business Systems, Information Management

Data Management – Asset Registers, Equipment Databases, Data Validation, Data Migration, Data Analysis

Reporting & Analysis – Microsoft Excel, SQL, Data Summaries, Reporting Capabilities, Analytical Skills

Operations Support – Asset Tagging, Verification Projects, Service Operations, Technical Documentation, Continuous Improvement

Cloud & Containerization – AWS EC2, Docker

PROJECTS

Enterprise Asset Management System Enhancement

- Developed and implemented enhancements for an enterprise asset management system, focusing on improving the accuracy and accessibility of equipment records for a large utility client.
- Engineered Python scripts to automate the bulk upload and validation of asset data from diverse sources into the central **asset register**, reducing manual entry time by approximately **40%**.
- Designed and delivered a series of training sessions to the operations team on new data entry procedures and reporting features within the **Maximo** system.

Digital Maintenance System Data Migration

- Coordinated a data migration project to transfer asset information from legacy systems to a new **CMMS** platform, ensuring data integrity and minimal disruption to operations.
- Performed detailed **data validation** and cleansing across multiple spreadsheets and databases, resolving over **500** data inconsistencies before migration.
- Collaborated with system engineers to map data fields and troubleshoot integration issues during the **data migration** process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
