HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supervised the automated loading, amendment, and maintenance of consumer and commercial data on enterprise databases, forming independent judgments from source data rather than solely relying on system recommendations.
- Performed direct data loading, amendment, and deletion for cases falling outside automation parameters or requiring manual handling, ensuring adherence to strict quality control procedures.
- Analysed data discrepancies and anomalies, applying acquired knowledge and training to resolve queries that automation could not address, and performed quality sampling on automatically processed data.
- Identified patterns in automation errors, such as incorrect matching or misread fields, and logged them in a structured format to facilitate system improvements and feedback loops.
- Managed and escalated data issues based on defined triggers like low system confidence, unusual error rates, or potential consumer impact, ensuring data quality and security protocols were maintained.
- Collaborated with inter-departmental agents and Technology teams to progress issue resolution, support the development of new automated solutions, and demonstrate 'as is' and 'to be' data processing approaches.
- Assisted in the training and development of new team members by sharing insights into automation performance and core role competencies, contributing to a multi-skilled team environment.

SKILLS

Data Operations & Analysis – Data Processing, Data Quality, Quality Control, Anomaly Detection, Root Cause Analysis, Data Validation, Data Cleansing, Data Maintenance, Data Loading, Data Amendment, Data Deletion, Data Security, Consumer Data, Commercial Data, Automation Supervision, Manual Intervention, Escalation Management, Pattern Recognition, Error Logging, Process Improvement

Tools & Technologies – SQL, Splunk, Dynatrace, Python Scripting, Jira, Confluence, Linux Shell Scripting, AWS CloudWatch, Jenkins Pipelines, Git

Data Modelling & BI – Power BI, Tableau, DAX Measures, Data Warehousing, Business Intelligence, Data Visualisation, Report Publishing

Programming & Scripting – Python, Java, Spring Boot, REST APIs, Flask, FastAPI, Pandas, NumPy

Databases – PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda)

Methodologies – Agile, Scrum, Change Management

PROJECTS

Automated Transaction Monitoring System (HCL Technologies)

- Developed Python scripts to parse and analyse high-volume transaction data streams, identifying patterns indicative of system failures or anomalies for a financial-services operations dashboard.
- Implemented automated alerting mechanisms using SQL queries against PostgreSQL, flagging over **~3,200 failed transaction messages** weekly for immediate review by operations teams.
- Integrated monitoring data from Splunk and Dynatrace into a consolidated dashboard, enabling quicker root cause analysis for P1/P2 incidents impacting data processing SLAs.

Customer Data Quality Enhancement Initiative

- Designed and implemented a Python-based data validation service to process incoming consumer and commercial data against defined quality rules, catching approximately **70% of schema errors** before ingestion.
- Built interactive Power BI dashboards visualising data quality metrics and discrepancy trends, enabling business stakeholders to track improvements and identify areas for further automation refinement.
- Collaborated with a cross-functional team to refine data cleansing routines, reducing manual intervention requirements by an estimated **15%** over a three-month period.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
