PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analysed **FMIS and SAP finance information** for delivery projects, providing real-time updates on commercial status and budget adherence for approximately 15 core initiatives.
- Managed and maintained **commercial inputs for Programme Dashboards and Management Reports**, ensuring data consistency across cross-functional finance teams.
- Developed and implemented **continuous process improvements** for the analysis of project commercial information, reducing report generation time by **~18%**.
- Coordinated effectively with a large group of colleagues across EMP and Networks to track and report on commercial inputs to the work programme.
- Maintained and managed **databases and SharePoint libraries** of programme information, ensuring the implementation of appropriate governance for commercially sensitive records.
- Liaised with EMP Finance and ESB Networks and Generation Finance to ensure consistency in reporting procedures and data integrity.
- Collaborated with business analysts and operations teams to gather requirements for reporting enhancements and support UAT for dashboard updates.

SKILLS

Financial Management – FMIS, SAP, Commercial Management, Budgeting, Financial Analysis, Reporting

Data Analysis & Reporting – Business Analysis, Data Preparation, Data Modelling, Process Improvement, SharePoint, Databases

Project Management Support – Programme Management, Work Programme Monitoring, Delivery Status Reporting, Resource Planning Integration

Collaboration & Communication – Interpersonal Skills, Stakeholder Management, Cross-functional Collaboration, Relationship Building

Core Technologies – SQL, Python, Excel (Advanced)

General IT – Jira, Confluence, Agile Methodologies

PROJECTS

HCL Financial Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** for a financial-services client by developing Python scripts to automate the parsing of transaction messages, reducing manual data entry by **~40%**.
- Implemented real-time monitoring and alerting for failed and stuck payment messages, improving incident response times by **22%** and ensuring adherence to strict SLAs.
- Collaborated with business analysts to define requirements for new reconciliation workflows and supported UAT for dashboard feature releases.

Enterprise Systems Data Integration

- Supported and integrated with enterprise business systems, including ERP modules, by developing **REST APIs** in Java Spring Boot for cross-system data exchange.
- Managed change-control processes for system configuration updates and coordinated post-go-live support across interconnected platforms, ensuring smooth transitions for **3 major system updates**.
- Executed ad-hoc SQL queries across PostgreSQL and Oracle databases for data validation and troubleshooting during system integrations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
