PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for backend services, implementing robust error handling and data validation patterns.
- Designed and implemented **Hibernate** entities and mappings for complex relational data models, ensuring efficient data persistence and retrieval across multiple modules.
- Authored **JUnit** and **Mockito** test suites for Java applications, achieving over **85% code coverage** and identifying critical defects prior to deployment.
- Supported operational tasks for the Profile Data Services team, performing data validation against **MV90** and **SAP ISU** outputs to ensure accuracy for market participants.
- Contributed to the development of new business processes and continuous improvements within the Profile Data Services section, focusing on enhancing reporting and analysis capabilities.
- Collaborated with other business units such as **MRSO** and **MD Database** to share knowledge and skills, ensuring consistent application of guidelines and policies.
- Managed the deployment of containerized applications using **Docker** and basic **AWS EC2** instances, ensuring reliable service delivery within defined operational parameters.

SKILLS

Core Technologies – Java, Spring Boot, Hibernate, JPA, REST APIs, Python, SQL, Docker, Linux, Git, Jenkins

Cloud & Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Data & Analytics – Power BI, Tableau, R/RStudio, pandas, NumPy, scikit-learn, DAX, Power Query, Data Modelling, Data Warehousing

Business Systems – MV90, SAP ISU, ERP Systems

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Enterprise Data Ingestion and Processing Pipeline (HCL Technologies)

- Developed a **Python**-based ETL pipeline to ingest and transform data from disparate enterprise systems, processing approximately **15,000 records daily**.
- Engineered data validation and cleansing routines using **pandas**, reducing data quality errors by **18%** before loading into the central data warehouse.
- Integrated the pipeline with existing **Java Spring Boot** services via REST APIs, ensuring seamless data flow for downstream operational reporting.

Customer Transaction Monitoring Dashboard (HCL Technologies)

- Built an interactive **Power BI** dashboard to monitor transaction flows and operational alerts for a financial-services client, providing real-time visibility into payment statuses.
- Developed complex **DAX** measures and Power Query transformations to aggregate and analyze high-volume transaction data, enabling faster identification of processing anomalies.
- Collaborated with business analysts to gather requirements and refine dashboard features, supporting over **50 operational stakeholders** in their daily monitoring activities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
