PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and maintained client software portals and CRM systems, ensuring seamless integration with laboratory services for enterprise clients.
- Played a leading role in the rollout of a suite of IT integration tools, enhancing laboratory services and products for a large client base.
- Built and maintained strong relationships with existing and future company customers by developing a complete understanding of client needs and business area requirements.
- Provided up-to-date metrics on client engagement activities to the Sales Operations Manager and Commercial Director, supporting strategic decision-making.
- Developed Python scripts to automate data pipelines and scheduled reporting for operational dashboards, improving data processing efficiency by approximately **30%**.
- Managed production support for enterprise Java applications, focusing on SLA management and P1/P2 incident response across distributed systems.
- Collaborated with cross-functional teams to gather requirements, coordinate UAT, and provide post-implementation triage for enterprise business systems.

SKILLS

Client Engagement & Support – Client Relationship Management, Customer Onboarding, Technical Support, Requirements Gathering, UAT Coordination

Software & Systems – CRM, Portals, IT Integration Tools, Enterprise Software

Data & Automation – Python Scripting, Data Pipelines, ETL, Scheduled Reporting, Operational Dashboards

Development & Operations – Java Spring Boot, REST APIs, Production Support, SLA Management, Incident Response, CI/CD, Git, Jenkins

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, SQL (PostgreSQL, MySQL, Oracle)

Methodologies & Tools – Agile, Scrum, Jira, Confluence

PROJECTS

Client Portal Configuration and Integration Module

- Configured and customized client-facing portals and CRM modules to meet specific business area requirements, directly supporting over **15 enterprise clients**.
- Developed Python scripts to automate data ingestion and validation for new client portal setups, reducing manual configuration time by an estimated **40%**.
- Collaborated with client stakeholders to gather feedback and implement enhancements for the portal user experience, improving client satisfaction scores by **18%**.

Operational Reporting Automation for Enterprise Systems

- Engineered automated reporting solutions using Python and SQL to extract and transform data from enterprise systems, delivering key operational metrics to management.
- Designed and built interactive dashboards in **Power BI** to visualize transaction flows and system performance, providing actionable insights for the operations team.
- Managed the deployment and maintenance of CI/CD pipelines for reporting tools, ensuring timely and accurate delivery of reports to stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
