PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Diagnosed and resolved complex customer issues involving hardware, software, and environmental factors for the FlashBlade product, consistently meeting SLAs.
- Managed a queue of **~45 support cases** simultaneously using an internal ticket tracking system, prioritizing and resolving issues across multiple severity levels.
- Authored and maintained **15+ knowledge base articles** and FAQs based on recurring customer issues, improving self-service resolution rates for the support team.
- Mentored and coached **two junior support engineers** on troubleshooting methodologies and customer communication best practices, enhancing team capabilities.
- Participated in daily stand-ups and sprint planning sessions, providing technical input and effort estimations for new feature development and bug fixes on enterprise systems.
- Troubleshot intricate **networking issues** across **Fibre Channel**, **Ethernet**, and **iSCSI protocols** to diagnose and resolve customer connectivity and performance problems.
- Containerized internal support tooling using **Docker** and deployed them to a development **Kubernetes** cluster, improving deployment consistency and reducing setup time for new team members.

SKILLS

Core Technologies – Linux, Windows, VMware, LANs, WANs, Storage Area Networks

Storage & Protocols – Fibre Channel, Ethernet, IP, iSCSI, File Storage, Object Storage, AWS S3

Support & Operations – Technical Support, Incident Management, Troubleshooting, Escalation, Customer Service, Knowledge Base Management, On-Call Rotation

Software & Tools – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, PagerDuty

Programming & Scripting – Python, Shell Scripting

Hardware & Systems – Enterprise Server Components, Hardware Support, Software Support

PROJECTS

FlashBlade Customer Triage and Resolution Platform

- Developed a Python-based internal dashboard to aggregate alerts from **Splunk** and **Dynatrace**, providing a consolidated view of system health for the support team.
- Implemented automated data collection scripts using **Linux shell scripting** to gather diagnostic logs from customer environments, reducing manual data collection time by **~30%**.
- Designed and documented troubleshooting workflows for common **Ethernet** and **IP** related storage issues, which were integrated into the team's standard operating procedures.

Enterprise Application Support Automation

- Automated the generation of weekly operational reports by developing Python scripts that queried PostgreSQL databases and formatted output into human-readable summaries.
- Managed the change control process for production environment updates, coordinating user acceptance testing (UAT) and post-go-live support for a financial-services operations dashboard.
- Supported and integrated with enterprise business systems, including ERP modules, ensuring seamless data flow across interconnected platforms via REST APIs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
