PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Resolved an average of 15-20 customer support cases daily, encompassing **hardware**, **software**, and environmental factors impacting **FlashBlade** systems.
- Owned and tracked customer issues through an internal **ticket tracking system**, ensuring timely updates and professional communication for **escalations**.
- Developed and documented **knowledge base articles** and FAQs to assist both internal teams and customers, reducing repeat inquiries by approximately 18%.
- Mentored **junior support engineers** through structured training sessions and daily coaching, improving their case resolution times by an average of 12%.
- Managed concurrent support cases and project tasks, prioritizing critical issues and ensuring adherence to **SLAs** for a 24x7 support environment.
- Analyzed and troubleshot complex **networking**, **replication**, **performance**, and **space issues** within enterprise storage environments.
- Conducted root cause analysis for P1/P2 incidents on enterprise applications, coordinating with engineering teams to implement effective fixes and prevent recurrence.

SKILLS

Support & Troubleshooting – Technical Support, Hardware Support, Software Support, Incident Response, Root Cause Analysis, Escalations, Performance Tuning, Networking (Fibre Channel, Ethernet, IP, iSCSI), Storage Protocols (Object, File, iSCSI)

Operating Systems & Environments – LINUX, Windows, VMware, Shell Scripting

Cloud & Storage – AWS S3, Enterprise Storage, FlashBlade

Customer Engagement – Customer Service, Customer Communication, Mentoring, Knowledge Base Management, FAQ Development

Tools & Methodologies – Ticketing Systems, Jenkins, Git, Jira, Confluence, Agile/Scrum

PROJECTS

Enterprise Storage System Performance Analysis (HCL Technologies)

- Analyzed system performance metrics for a large-scale enterprise storage solution, identifying bottlenecks in **Ethernet** and **IP communication** layers.
- Developed Python scripts to automate the collection and initial analysis of **system logs** and performance counters, reducing manual analysis time by 40%.
- Collaborated with the client's operations team to understand their specific workload patterns and translate them into actionable performance tuning recommendations.

Customer Onboarding Automation for Enterprise Software (HCL Technologies)

- Designed and implemented automated workflows using **Python scripting** and **Jira** integration to streamline the onboarding process for new enterprise clients.
- Created comprehensive documentation and **runbooks** for client IT teams, detailing system configuration and initial troubleshooting steps.
- Reduced the average time-to-complete initial client setup by approximately 3 days through automated checks and guided configuration.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
