PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained global data risk and stewardship policies, standards, and guidance, covering classification frameworks, data de-identification, and data quality.
- Partnered with Risk Management, Global Data Office, and EY Technology stakeholders to ensure consistent implementation and adoption of data policy requirements across the organization.
- Assisted in creating global policy positions on strategic topics including data stewardship and data risk management, ensuring alignment with existing standards and evolving requirements.
- Designed and implemented standards, templates, and change control processes for governance frameworks, RACIs, and compliance models, aligned with global policies.
- Supported the continuous improvement of the global data risk framework by providing governance insights and mapping risk, control, and accountability.
- Contributed to the design and maintenance of testing methodologies and standards validation activities to ensure framework adherence and audit readiness.
- Developed leadership presentations and toolkits to promote awareness and engagement on data risk governance and responsible data use.

SKILLS

Data Governance & Risk – Data Risk Governance, Data Stewardship, Policy Development, Standards, Guidance, Risk Management, Compliance Frameworks, RACI, Control Mappings, Audit Readiness, Responsible AI, Data Protection

Data Management – Data Classification, Data De-identification, Data Quality, Data Lineage, Metadata Handling, Data Retention, Data Minimization, Archiving, Disposition, Secure Handling

Stakeholder Management – Cross-functional Collaboration, Global Framework Design, Harmonisation, Influencing Senior Stakeholders, Matrixed Environments, Communication, Storytelling, Change Enablement

AI & Innovation – AI Data Governance, Responsible Data Use, Synthetic Data, AI-enabled Solutions, Model Training, Embeddability

Technical Skills – SQL, Python, Java, Spring Boot, REST APIs, AWS, Docker, Linux, Jenkins, Jira, Splunk, Power BI, Tableau, R, pandas, scikit-learn

Enablement & Training – Capability Building, Digital Learning, HTML Content, UI/UX Principles, Learning Journeys, Toolkits, Templates, Assessments

PROJECTS

Global Data Governance Framework Enhancement

- Developed comprehensive documentation for data governance policies and standards, including detailed RACI matrices and compliance models for enterprise-wide adoption.
- Designed and implemented change control processes for the governance framework, ensuring alignment with evolving regulatory requirements and internal data risk objectives.
- Created assessment templates and validation criteria to support testing methodologies for data governance controls, improving audit readiness across multiple business units.

Data Risk Policy Implementation & Training Toolkit

- Authored a series of leadership presentations and toolkits explaining complex data risk concepts, including AI data governance and responsible data use, for executive stakeholders.
- Collaborated with learning owners to integrate data risk controls and governance requirements into digital learning modules, enhancing user understanding and adoption.
- Assisted in defining standards for synthetic data generation and data de-identification, contributing to secure data handling practices within the organization.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
