HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained automation scripts using **Python** to streamline data processing tasks, reducing manual intervention by **40%**.
- Designed and implemented control logic for automated equipment, focusing on **PLC programming** and system integration within manufacturing environments.
- Collaborated with **automation and engineering teams** to support the successful delivery of technical projects, ensuring alignment on system requirements and timelines.
- Troubleshot and resolved automation-related issues, contributing to **root cause analysis** and the implementation of continuous improvement measures.
- Prepared and maintained comprehensive **technical documentation**, including specifications, engineering records, and system manuals.
- Assisted with the commissioning and testing of **automated equipment** and systems, validating performance against design specifications.
- Managed **production support** for enterprise applications, including SLA adherence and P1/P2 incident response using **Splunk** and **Dynatrace**.

SKILLS

Programming Languages – Python, Java, SQL, R, DAX

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Automation & Control – PLC Programming, SCADA Systems, Industrial Automation, Scripting

Business Intelligence – Power BI, Tableau, Data Warehousing, Data Modelling

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Linux Shell Scripting

PROJECTS

Industrial Automation Control System Upgrade

- Engineered and implemented a new control system architecture using **Python scripting** for configuration management and **PLC integration** for automated production line adjustments.
- Developed automated testing procedures that increased system validation efficiency by **30%**, reducing commissioning time for new equipment.
- Documented the system design, operational procedures, and troubleshooting guides for the upgraded automation framework.

Python-based ETL Pipeline for Manufacturing Data

- Designed and built an **ETL pipeline** using **Python** and **pandas** to ingest, clean, and transform raw manufacturing data from disparate sources.
- Integrated the pipeline with **PostgreSQL** to store processed data, enabling improved reporting and analysis for operational metrics.
- Automated the daily data loading process, ensuring timely availability of insights for the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
