HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production support and incident response for enterprise applications, resolving P1/P2 incidents within defined SLAs using **Splunk** and **Dynatrace** for monitoring.
- Automated data ingestion and scheduled reporting tasks using **Python scripting**, processing over 500 GB of data weekly for upstream analytics.
- Developed and maintained **Java Spring Boot** REST APIs for core business services, handling approximately 1,500 requests per minute during peak hours.
- Collaborated with teammates to build and automate solutions using **monitoring tools** and ITSM tracking, contributing to service management enhancements.
- Supported the implementation of resilient, **cloud-based systems** aligned with long-term infrastructure strategy, focusing on operational stability.
- Engaged in operations support to implement solutions for **Service Management**, including documentation of new procedures and user guides.
- Containerized application services using **Docker** and deployed to **AWS EC2** instances, improving deployment consistency and reducing setup time by 40%.

SKILLS

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker, Linux

Programming Languages – Java, Spring Boot, Python, SQL

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Jenkins, Git, Code Reviews

Monitoring & Observability – Splunk, Dynatrace

Tools & Methodologies – Jira, Confluence, Agile, Scrum

PROJECTS

Enterprise Application Monitoring Enhancement

- Enhanced production monitoring for a suite of enterprise applications by integrating **Splunk** alerts with automated ticketing in **Jira**, reducing manual triage time by 30%.
- Developed a **Python** script to parse and aggregate log data from multiple sources, providing daily operational health summaries to the support team.
- Refined **Java Spring Boot** application configurations to improve performance and stability, contributing to a 15% reduction in critical incidents.

Automated Data Pipeline for Operations Dashboard

- Constructed an automated data pipeline using **Python** and **SQL** to extract, transform, and load transaction data into a central PostgreSQL database for an operations dashboard.
- Designed and implemented data validation checks within the pipeline to ensure data integrity, catching over 95% of malformed records before ingestion.
- Collaborated with business analysts to gather requirements for key operational metrics displayed on the dashboard, ensuring alignment with support team needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
