HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and developed **Java Spring Boot** RESTful APIs for internal services, handling over 500 requests per second during peak loads.
- Implemented critical bug fixes and feature enhancements within the **Java Spring Boot** framework, improving application stability by approximately 15%.
- Designed and maintained relational database schemas and wrote complex **SQL** queries across **PostgreSQL** and **Oracle** to support new application features.
- Developed **Python** scripts to automate ETL processes for data ingestion and reporting, reducing manual effort by an estimated 10 hours per week.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing corrective actions to meet strict SLAs.
- Containerised applications using **Docker** and managed deployments within **AWS EC2** instances, streamlining the development-to-production workflow.
- Collaborated with cross-functional teams to gather requirements for new system integrations and support change management processes for enterprise systems.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Splunk, Dynatrace, Power BI, Tableau, RStudio

Methodologies – Agile, Scrum

PROJECTS

Enterprise System Integration Layer

- Developed a **Java Spring Boot** microservice to act as an integration layer between an ERP system and a client-facing portal, enabling seamless data exchange.
- Designed and implemented RESTful APIs for internal and external system communication, ensuring data consistency and transaction integrity across platforms.
- Wrote comprehensive unit tests using **JUnit** and mock objects to achieve over 85% code coverage for critical integration modules.

Automated Reporting Pipeline

- Created a **Python**-based ETL pipeline to extract, transform, and load data from multiple operational databases into a central reporting repository.
- Developed automated daily and weekly reports using **pandas** and generated visualizations in **Power BI** for business stakeholders to monitor key operational metrics.
- Managed the scheduling and execution of the data pipeline using cron jobs on **Linux**, ensuring timely delivery of reports with minimal manual intervention.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
