PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed detailed data analysis on investment vehicle characteristics and reference data, identifying and resolving **data anomalies** and ensuring accuracy for daily operational tasks.
- Responded to and resolved an average of **15 helpdesk queries per week** from internal users regarding investment data discrepancies, performing root cause analysis to prevent recurrence.
- Collaborated with **data vendors** and internal business partners to procure, validate, and integrate diverse investment data sets, including securities and mutual funds.
- Assisted in the definition and execution of **test plans** for process enhancements, supporting user acceptance testing (UAT) for data quality improvements.
- Developed and maintained **procedural documents** and transition guides for new data operational workflows, ensuring knowledge transfer across the team.
- Wrote **SQL queries** to extract and analyze complex datasets related to managed accounts and indices, supporting ad-hoc reporting and data quality initiatives.
- Containerized **Python scripts** used for data validation and analysis with Docker, deploying them to an AWS Lambda environment for efficient processing of ~2,000 data records per hour.

SKILLS

Data Analysis & BI – SQL, Power BI, Tableau, RStudio, DAX, Power Query, Data Modelling, Data Warehousing, Business Intelligence

Programming & Scripting – Python, pandas, NumPy, R, Shell Scripting

Financial Data – Investment Vehicle Data, Securities, Mutual Funds, Managed Accounts, Indices, Composites, Reference Data, Characteristics Data

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – MS Office Suite, Jira, Confluence, Agile, Scrum

PROJECTS

Investment Data Quality Dashboard (MSc Project)

- Developed an interactive **Power BI dashboard** to visualize key metrics for investment data quality, including completeness and accuracy of securities and fund data.
- Applied **Power Query** to ETL a variety of financial data sources, performing data cleaning and transformation to prepare datasets for analysis and reporting.
- Created custom **DAX measures** to calculate data anomaly rates and identify trends in data discrepancies across different investment vehicle types.

Automated Transaction Reconciliation Workflow (HCL Technologies)

- Engineered **Python scripts** to automate the reconciliation of financial transaction data between two disparate systems, reducing manual effort by approximately **40%**.
- Wrote complex **SQL queries** against PostgreSQL databases to extract and compare transaction records, flagging discrepancies for further investigation.
- Implemented **scheduled reporting** using Python cron jobs to deliver daily reconciliation summary reports to operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
