PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed and maintained TV, broadband, and software metering equipment in **150+ panel homes** across multiple counties, ensuring accurate data capture.
- Provided **customer-centric service** and technical guidance to panel members, educating them on equipment usage and troubleshooting issues with a **95% first-time fix rate**.
- Investigated and resolved technical issues with metering hardware and software, liaising with the Panel Service team to ensure efficient resolution and maintain service SLAs.
- Accurately logged and reported on panel home activity, equipment status, and service requests using internal ticketing systems, contributing to operational efficiency.
- Collaborated with wider operational teams to manage stock levels of metering equipment, ensuring availability for new panel installations and replacements.
- Developed **Python scripts** to automate data validation checks for metering equipment logs, reducing manual processing time by approximately **30%**.
- Containerised the data validation scripts using **Docker** and deployed them to a cloud environment for improved reliability and scalability.

SKILLS

Field Service – Installation, Maintenance, Troubleshooting, Customer Service, Technical Support, Metering Equipment, Software Installation

Tools & Technologies – Python, Docker, Linux, Shell Scripting, Git, Jira, Confluence, Splunk, Dynatrace, CloudWatch

Cloud & Infrastructure – AWS (EC2, S3, Lambda), Jenkins, CI/CD

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, SQL (PostgreSQL, MySQL, Oracle)

Programming Languages – Java, Spring Boot, Python, R

Methodologies – Agile, Scrum, Incident Response, Change Management

PROJECTS

Field Equipment Diagnostic and Automation Tool

- Developed a **Python-based diagnostic tool** to remotely assess the status of TV and broadband metering equipment in panel homes.
- Integrated **SQL queries** to pull historical performance data from a PostgreSQL database, identifying common failure patterns and trends.
- Built automated reporting capabilities to flag devices requiring proactive maintenance, reducing potential service disruptions by an estimated **15%**.

Customer Onboarding and Technical Documentation Platform

- Designed and documented a clear, step-by-step onboarding process for new panel members, integrating **interactive guides** and troubleshooting FAQs.
- Created a centralized knowledge base using Confluence, reducing average customer query resolution time by approximately **20%**.
- Collaborated with customer operations teams to refine documentation based on feedback, ensuring clarity and ease of use for **end-users**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
