PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Assisted with the **onboarding of potential panel members** for the Television Audience Measurement service, explaining service benefits and data collection processes.
- Managed incoming **calls from panel members**, accurately recording outcomes and technical fault details in the contact history database to ensure data integrity.
- Conducted **follow-up calls to panel members** regarding potential compliance issues or technical faults with metering equipment, documenting resolutions and next steps.
- Collaborated with **regional Field Technicians** to conduct interactive tests and quality checks within panel member homes, ensuring accurate equipment data collection.
- Gathered and updated **centralized database information** from Field Technicians regarding equipment status and home environments, supporting data processing workflows.
- Contributed to **Continuous Improvement (CI) initiatives** by identifying and documenting potential areas for service change and efficiency gains within the panel operations.
- Performed **validation checks on home data** to identify discrepancies that could impact data processing accuracy, working closely with the wider team to meet project deadlines.

SKILLS

Customer Service – Relationship Building, Communication, Problem Solving, Teamwork, Interpersonal Skills

Operations – Data Entry, Database Management, Quality Assurance, Process Improvement, Administrative Skills

Technical Skills – Call Handling, Data Collection, Technical Support, Troubleshooting, Documentation

Project Management – Deadline Management, Multitasking, Prioritization, Accuracy, Efficiency

Domain Knowledge – Audience Measurement, Metering Technology, Panel Management

PROJECTS

Television Audience Measurement Panel Onboarding

- Developed a script and process to contact and inform potential **panel members** about the new Television Audience Measurement service, detailing participation requirements.
- Managed a database of prospective and active panel members, ensuring all **contact history and technical fault data** was accurately logged and categorized for operational use.
- Collaborated with a small team to refine the **onboarding workflow**, reducing the average time to get a new panel member fully registered by approximately 15%.

Panel Member Technical Support Workflow

- Designed a structured approach for responding to **technical fault calls** from panel members, ensuring consistent information gathering and resolution tracking.
- Worked with **Field Technicians** to collect and verify equipment data from panel member homes, creating a standardized reporting format for the central database.
- Participated in UAT for a new **data validation module**, identifying critical issues in data integrity checks that could have led to inaccurate audience measurement.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
