HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **RESTful APIs** in **Java Spring Boot** for cross-service data exchange, including request validation and circuit-breaker patterns.
- Engineered robust **Python ETL pipelines** to ingest and transform data from disparate sources for scheduled reporting and batch processing.
- Managed production support for enterprise Java/.NET applications, resolving **P1/P2 incidents** and ensuring SLA adherence using **Splunk** and **Dynatrace**.
- Developed and maintained integration strategies for third-party payment solutions within the POS terminal ecosystem, defining technical designs and API specifications.
- Owned the end-to-end integration lifecycle for third-party solutions, from requirement gathering and design through to testing, certification, and deployment.
- Collaborated closely with product, engineering, and business teams to identify and implement integration opportunities that enhanced client experience and terminal functionality.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits and network policies for predictable rollouts.

SKILLS

Backend Development – Java, Spring Boot, RESTful APIs, Microservices, Python, ETL, Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle, SQL

API Management – API Gateway, OpenAPI, Swagger, GraphQL

Payment Systems – POS Terminals, Payment Applications, EMV, PCI DSS

Observability & Support – Splunk, Dynatrace, Incident Response, SLA Management

PROJECTS

POS Terminal Integration Framework

- Developed a reusable integration framework in **Java Spring Boot** to streamline the onboarding of third-party payment applications for POS terminals.
- Designed **OpenAPI specifications** for core integration points, enabling seamless API documentation and consumption by external vendors.
- Implemented robust error handling and logging mechanisms to ensure secure and reliable data exchange between systems, reducing integration failures by **18%**.

Payment Transaction Data Pipeline

- Built an automated **Python ETL pipeline** to process and aggregate transaction data from multiple payment gateway APIs for reconciliation workflows.
- Integrated with **PostgreSQL** to store and manage processed transaction records, supporting ad-hoc querying and data validation for operational teams.
- Scheduled and monitored pipeline execution using **Jenkins**, ensuring timely delivery of daily reconciliation reports to business analysts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
