PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented network infrastructure solutions for large-scale projects, ensuring seamless hand-off to operations and support teams.
- Administered technical aspects of network delivery projects, including detailed planning, issue resolution, and independent solution development for complex challenges.
- Managed the efficient daily operations and maintenance of IT services, integrating best practices, automation, and orchestration capabilities to meet customer expectations.
- Collaborated with Solutions Architecture and Engineering teams to implement proposed networking solutions, focusing on service-oriented delivery and customer needs.
- Took end-to-end ownership to prevent and solve network issues, proactively identifying areas for improvement and leading efforts in process standardization and simplification.
- Provided technical escalation for production support, addressing critical network issues during and outside of normal business hours.
- Deployed and managed network infrastructure using **Terraform** for large-scale configuration management across **Azure** environments.

SKILLS

Networking – Cisco routing and switching, Cisco SD-WAN (Viptela, Meraki), WAN, Campus, Data Centre, Wireless, Firewalls, VPN, Load Balancers

Cloud – Azure fundamentals (AZ900), AZ700 Azure networking fluency

Infrastructure as Code – Terraform

Operating Systems – Linux

Collaboration Tools – Confluence

Programming/Scripting – Python

PROJECTS

Enterprise Network Infrastructure Deployment

- Managed the deployment of **Cisco routing and switching** infrastructure across multiple data center locations as part of a regional delivery program.
- Engineered and documented network configurations for **WAN and Campus networks**, ensuring adherence to enterprise-scale best practices and security standards.
- Integrated new network segments with existing compute, storage, and security systems, coordinating with operations teams for smooth transition and validation.

Azure Networking Automation with Terraform

- Developed and maintained **Terraform** modules to automate the provisioning and configuration of **Azure networking** resources, including VNets, subnets, and NSGs.
- Implemented **firewall and VPN** configurations programmatically, reducing manual deployment errors and improving consistency across development and production environments.
- Designed and documented network architectures for cloud-based applications, adhering to AZ700 networking principles and best practices for scalability and resilience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
