PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported the **Safety and Compliance Director** by performing daily administration of safety and Flight Data Monitoring (FDM) efforts, ensuring timely processing and analysis of safety and flight data.
- Validated and processed **Air Safety Reports**, identifying adverse events, causations, correlations, and trends in flight and maintenance operations through analysis of digital safety and flight data.
- Prepared safety trending analysis, including **charts and reports**, for presentation to enhance training, maintenance, and flight operations across the organization.
- Compiled and presented **safety and FDM data summaries** to various teams, facilitating improvements in operational efficiency and safety protocols.
- Assisted in the creation of **Safety Department publications** and supported the conduct of Safety Meetings, including taking minutes and disseminating action items.
- Managed the data collection process for the aircraft fleet in conjunction with the **Maintenance department**, ensuring accurate and up-to-date records for safety assessments.
- Developed and maintained operational dashboards using **Power BI**, translating raw flight data into actionable insights and visual reports for management review.

SKILLS

Safety Management – Flight Data Monitoring (FDM), Air Safety Reports, Learning Reviews, Hazard Identification, Risk Assessments, Risk Reviews, Emergency Response Plan

Aviation Regulations – EASA Regulations

Data Analysis & Reporting – Data Analysis, Trending, Data Presentation, Statistical Analysis, Report Writing, Charts

Software & Tools – Microsoft Office Suite (Word, Excel, Outlook), Power BI, Safety Management Software

Operations Support – Flight Operations, Ground Operations, CAMO, Maintenance Department, Operational Efficiency

PROJECTS

Flight Operations Safety Analysis Dashboard

- Developed a comprehensive **Power BI dashboard** to visualize key safety metrics and trends derived from flight data monitoring (FDM) reports.
- Integrated data from multiple sources including flight logs and incident reports to provide a unified view of operational safety for management.
- Automated weekly and monthly data compilation and reporting processes, reducing manual effort by approximately **40%**.

Aircraft Maintenance Safety Data Collation

- Designed and implemented a system for collating safety-related data from the aircraft maintenance department, improving data accuracy and accessibility.
- Created standardized templates for reporting maintenance-related safety observations, ensuring consistency across reports.
- Supported the identification of potential safety hazards by analyzing maintenance logs and correlating them with operational data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
