PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Assisted in day-to-day business operations by maintaining and updating records and databases for enterprise financial-services applications, ensuring data accuracy for approximately **15,000 transactions** processed weekly.
- Prepared detailed business documentation and standard operating procedures for production support workflows, contributing to a **15% reduction** in misrouted support tickets.
- Supported project planning and execution for system enhancements by coordinating with cross-functional operations teams, leading to the successful deployment of **3 minor features** within a 2-week sprint cycle.
- Analyzed business data using **Power BI** and Excel to generate insights for strategic initiatives, presenting findings on customer engagement trends to management which influenced a **5% shift** in resource allocation.
- Conducted market and business research on emerging operational efficiency tools, compiling a comparative analysis report that informed the selection of a new **ticketing system** for the support function.
- Coordinated with internal teams to schedule and document meetings, preparing agendas and tracking action items for a project focused on improving inter-departmental communication, resulting in **100% completion rate** for assigned tasks.
- Managed incident response and production support for enterprise applications, analyzing logs in **Splunk** and identifying root causes for P1/P2 incidents to meet strict service-level agreements.

SKILLS

Business Operations – Administrative Support, Process Improvement, Record Management, Data Entry

Project Coordination – Project Planning, Task Management, Stakeholder Coordination, Agile Methodologies

Data Analysis & Reporting – Business Analysis, Data Insights, Reporting, Microsoft Excel, Power BI, DAX

Communication & Collaboration – Written Communication, Verbal Communication, Teamwork, Interpersonal Skills

Technical Skills – SQL, Java Spring Boot, Python, AWS, Docker, Linux, Jenkins, Jira, Confluence, Splunk, Dynatrace, ERP Software

PROJECTS

Enterprise Operations Dashboard Enhancement (HCL Technologies)

- Developed and maintained **Java Spring Boot** RESTful APIs to integrate with various enterprise systems, processing an average of **5,000 requests per hour** for the financial-services operations dashboard.
- Implemented robust error handling and logging mechanisms using **Dynatrace**, reducing critical production incidents by **20%** and improving system stability for transaction monitoring workflows.
- Collaborated with business analysts to gather requirements for new dashboard features, translating them into technical specifications and coordinating UAT with operations teams to ensure successful deployment.

Automated Reporting and Data Aggregation (MSc Project)

- Designed and built an automated reporting solution using **Python** and **pandas** to aggregate data from multiple sources, reducing manual reporting effort by approximately **18 hours per week**.
- Created interactive **Power BI** dashboards to visualize key performance indicators and business trends derived from the aggregated data, enabling stakeholders to make informed decisions.
- Applied data modelling techniques in Power BI to structure datasets efficiently, facilitating complex DAX calculations for financial analysis and operational insights.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
