PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Delivered engaging **AI and innovation learning programmes** to a user base of over 1000 professionals, focusing on practical business applications and responsible technology adoption.
- Designed and developed **capability pathways and supporting resources** for firmwide adoption of emerging technologies, including Generative AI tools and novel working methodologies.
- Facilitated **innovation workshops and collaborative problem-solving sessions**, encouraging knowledge sharing and the exploration of new technology use cases across diverse service lines.
- Partnered with business functions to identify specific capability needs, translating them into tailored **learning programmes and use case examples** relevant to professional disciplines.
- Built awareness and reinforced principles of **Safe AI and Responsible AI**, emphasizing confidentiality, data protection, and professional obligations within all training initiatives.
- Developed and delivered training on **Microsoft 365 Copilot and Power Platform**, enabling colleagues to effectively integrate these tools into their daily workflows.
- Contributed to the **AI and innovation communities** by supporting awareness initiatives and facilitating sessions for AI champions across the firm.

SKILLS

AI & Innovation – Generative AI, Responsible AI, Safe AI, Innovation Methods, Emerging Technology Trends, AI Policies, Governance Requirements, AI Risks, Human Oversight, Professional Judgement, Accountability

Learning & Development – Learning Programmes, Capability Pathways, Training Delivery, Learning Solutions, Facilitation, Stakeholder Management, Business Analysis, Needs Assessment, Evaluation, Continuous Improvement

Microsoft Technologies – Microsoft 365, Microsoft 365 Copilot, Copilot Studio, Power Platform, Power Query, Power BI

Business & Professional Services – Service Line Enablement, Business Functions, Professional Disciplines, Client Experience, Regulatory Awareness, GDPR

General Technical – Python, Java, SQL, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, PostgreSQL, Splunk, Dynatrace, pandas, scikit-learn

PROJECTS

Generative AI Adoption Framework Development

- Designed a comprehensive framework for the adoption of **Generative AI tools**, including policy guidelines, approved use cases, and risk mitigation strategies for enterprise-wide implementation.
- Developed training modules on **prompt engineering and responsible AI usage**, delivered to over 200 employees across multiple departments to foster safe and effective AI integration.
- Collaborated with legal and compliance teams to embed **data protection and confidentiality** principles into the AI adoption framework, ensuring adherence to professional standards.

Internal Innovation & Future Skills Capability Program

- Created and delivered a series of workshops focused on **innovation methods and emerging technologies**, empowering teams to explore and apply new tools in their service lines.
- Developed supporting materials and resources for the **future skills capability programme**, including case studies and practical exercises on topics like AI-assisted workflows.
- Gathered feedback from over 150 participants to iterate on workshop content, ensuring continued relevance and impact on **colleague capability development**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS
