HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **product drawings** using CAD tools to support initial quotes and prototyping efforts for new medical devices.
- Developed and presented **product and process concepts**, including functional prototypes, to internal teams and stakeholders, facilitating early-stage design review.
- Provided **technical support** to Sales and Marketing teams, assisting in the creation of detailed quotations and technical documentation for customer proposals.
- Managed project timelines, cost targets, and technical deliverables for new product development initiatives, ensuring alignment with R&D; objectives.
- Collaborated with Production, Quality, and Technical teams to ensure seamless **transfer of new products to manufacturing**, supporting validations and staff training.
- Drove continuous improvement initiatives by applying **Lean tools** such as 5S and DMAIC to optimize development processes and enhance operational efficiency.
- Containerized development tooling and build pipelines using **Docker**, enabling consistent environments across development and testing stages.

SKILLS

CAD/Design – Solid Edge, Product Drawings, Prototyping

Project Management – Timelines, Cost Targets, Technical Deliverables, Requirements Gathering

Medical Device Development – Process Development, New Products, Extrusion-based Catheter Assemblies, Quality Compliance, Regulatory Compliance

Lean Manufacturing – 3P, 5S, DMAIC, Six Sigma

Software & Tools – Microsoft Office Suite (Excel, PowerPoint, Word), Jira, Confluence, Git, Docker

PROJECTS

Medical Device Prototyping and Design Validation

- Created detailed **product drawings** and CAD models for a novel medical device component, supporting quote generation and initial prototype builds.
- Developed and presented a comprehensive **process concept** for the device's manufacturing, including material selection and assembly steps, to senior management.
- Assisted in the initial **validation planning** and documentation required for regulatory submission, ensuring adherence to quality standards.

Lean Process Improvement for R&D; Tooling

- Applied **5S methodology** to the R&D; workshop, organizing tools and materials to improve efficiency and reduce search time by an estimated **20%**.
- Analyzed existing tooling workflows using **DMAIC principles** to identify bottlenecks in prototype fabrication, proposing process adjustments.
- Documented new standard operating procedures for the workshop, facilitating consistent and safe operation for junior technical staff.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
