PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Engaged directly with business stakeholders to gather and document functional requirements for ICT-enabled projects, translating complex needs into clear specifications.
- Facilitated requirements-gathering workshops with cross-functional teams and external suppliers, ensuring comprehensive input for business transformation initiatives.
- Analyzed existing operational processes within financial services, identifying key inefficiencies and proposing actionable improvements for system enhancements.
- Collaborated with ICT teams and developers to support the planning and delivery of business change initiatives, ensuring alignment between technical solutions and business objectives.
- Produced and maintained comprehensive business analysis documentation, including process maps, user stories, and requirements specifications, adhering to Agile methodologies.
- Contributed to business process re-engineering efforts, mapping current states and designing future-state workflows to improve operational efficiency.
- Supported the adoption of project management and business analysis methodologies, assisting in the coordination of UAT and post-implementation reviews.

SKILLS

Business Analysis Methodologies – Requirements Workshops, MoSCoW Prioritisation, Surveys, Process Mapping, Business Process Re-engineering

Tools & Technologies – JIRA, Confluence, Microsoft Office Suite, SQL, Python, Java

Project Delivery – ICT Project Support, Business Transformation, Continuous Improvement, Stakeholder Engagement, Requirements Gathering

Domain Knowledge – Financial Services Operations, Transaction Monitoring, Reconciliation Workflows

Technical Skills – REST APIs, Linux Shell Scripting, Data Analysis, PostgreSQL, AWS EC2

PROJECTS

Financial Operations Dashboard Enhancement

- Collaborated with business analysts and operations teams to define requirements for enhancements to a financial services operations dashboard, focusing on transaction monitoring and alerting.
- Documented detailed functional specifications and user stories for new features, including improved reconciliation workflow views and automated status reporting.
- Supported UAT cycles for dashboard updates, coordinating with end-users to validate functionality against business requirements.

ERP Integration Analysis and Documentation

- Analyzed data flows and integration points between core ERP modules and subsidiary operational platforms for a banking client.
- Mapped existing cross-system integrations using REST APIs and direct database queries, identifying areas for standardization and efficiency gains.
- Produced detailed documentation of integration processes and proposed future-state architectures for system updates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
