PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed hardware maintenance and component replacement on **Dell PowerEdge servers** and **NetApp storage devices**, resolving an average of 15 tickets per week within SLA.
- Troubleshot and resolved hardware failures for **server infrastructure** and **networking equipment**, minimizing downtime and restoring service for critical datacenter operations.
- Conducted regular system health checks and preventive maintenance on **server racks** and **network switches**, ensuring optimal performance and identifying potential issues proactively.
- Collaborated with other IT teams and external vendors to coordinate maintenance schedules, manage hardware inventory, and resolve complex technical issues.
- Maintained accurate documentation of all hardware maintenance activities, repairs, and inventory changes using a **ticketing system** and internal knowledge base.
- Responded promptly to hardware emergencies, performing root cause analysis and implementing solutions to quickly restore functionality across the datacenter environment.
- Gained practical experience with **IT hardware**, including disassembly and reassembly of PC components and server modules, under the guidance of senior technicians.

SKILLS

Hardware Support – Server hardware, Storage devices, Networking equipment, PC repair, Component replacement

Operating Systems – Linux, Windows Server

Networking – Network troubleshooting, Network infrastructure

Tools & Methodologies – Ticketing systems, Documentation, Inventory management, Agile methodologies

Certifications – CompTIA Network Plus (ideal)

PROJECTS

Datacenter Hardware Troubleshooting & Repair

- Diagnosed and repaired hardware failures on **Dell servers** and **Cisco network switches**, restoring service to over 50 critical systems.
- Replaced faulty components such as RAM, HDDs, and PSUs in server units, ensuring minimal disruption to ongoing datacenter operations.
- Maintained detailed logs of all repairs and component replacements within an internal tracking system, contributing to a 15% improvement in hardware issue resolution time.

IT Hardware Inventory and Maintenance

- Performed routine inspections and preventive maintenance on a fleet of 100+ **datacenter servers**, identifying and preempting potential hardware failures.
- Assisted in the management of hardware inventory, ensuring accurate records of all server, storage, and network assets.
- Documented maintenance procedures and troubleshooting steps, creating a knowledge base that reduced average troubleshooting time for common issues by 20%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
