PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Investigated and resolved data inconsistencies across specialist leasing systems, coordinating corrections with internal finance and technical teams, improving data accuracy by **15%**.
- Produced detailed system extracts and operational reports using **Excel** and database queries to support business requirements for portfolio analysis.
- Maintained leasing and asset records, ensuring alignment with portfolio activity, contractual changes, and supporting documentation for a fleet of over **150 aircraft and engines**.
- Supported improvements to data management procedures and record-keeping standards, contributing to a more efficient internal process for lease administration.
- Managed system extracts and information reports, directly supporting business requirements for commercial, financial, and technical portfolio information.
- Coordinated with cross-departmental stakeholders to ensure the quality and consistency of information held across specialist leasing systems.
- Developed Python scripts to automate data validation and reporting tasks, reducing manual effort by approximately **20%** for the operations support function.

SKILLS

Systems Administration – Leasing Systems Administration, Data Management, Lease Administration, Record Keeping, Process Improvement, Business Systems Support

Data Analysis & Reporting – Excel, Database Systems, System Extracts, Information Reports, Data Quality, Data Consistency

Aircraft Leasing Domain – Aircraft Leasing Systems, Asset Information, Commercial Portfolio, Financial Portfolio, Technical Portfolio

Programming & Scripting – Python, SQL, Shell Scripting

Tools & Technologies – Jira, Confluence, Linux, AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Splunk, Dynatrace, PostgreSQL, MySQL, Oracle

PROJECTS

Aircraft Portfolio Data Management System

- Developed a Python-based system to ingest and validate aircraft and engine lease data from various contractual documents and system extracts.
- Implemented automated checks for data consistency against established portfolio attributes and contractual terms, flagging discrepancies for review.
- Built reporting modules using SQL and Python to generate summaries of portfolio status, asset utilization, and upcoming contractual milestones for management review.

Lease Administration Workflow Automation

- Designed and implemented automated workflows using Python and shell scripting to streamline the processing of lease documentation and updates.
- Integrated with existing enterprise systems via REST APIs to ensure data synchronization between leasing platforms and financial systems.
- Created comprehensive documentation and user guides for the automated processes, facilitating adoption by operations and business analyst teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
