PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **CRM records** for sales opportunities, customer interactions, and tender progress, ensuring data accuracy for over 500 active client accounts.
- Generated comprehensive **pipeline, customer, and tender reports** using Excel and internal tools, providing visibility into commercial opportunities and progress for the sales team.
- Created interactive **dashboards and trackers** in Power BI to transform raw sales and customer data into actionable business insights, supporting strategic decision-making.
- Coordinated and managed **tender trackers**, including document control and submission requirements, for an average of 15 concurrent tender processes.
- Analysed **customer and market data** to identify potential growth opportunities and support business development initiatives, contributing to a refined target list.
- Drove continuous improvement in reporting processes and **digital tool adoption** across the sales and customer service functions, streamlining workflows.
- Containerized Java Spring Boot services for internal tooling using **Docker**, simplifying deployment and ensuring consistent environments across development and staging.

SKILLS

Business Tools – Microsoft Excel, PowerPoint, Word, Outlook, Jira, Confluence

CRM & Digital Platforms – CRM systems, Kanpla, Digital customer systems

Data Analysis & Reporting – Power BI, DAX, Power Query, Tableau, Data modelling, Data warehousing, Business Intelligence

Programming & Scripting – Python, Java, SQL, Spring Boot, REST APIs, Flask, FastAPI

Cloud & DevOps – AWS (EC2/S3/Lambda/CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Sales Performance Dashboard Development

- Designed and implemented a **Power BI dashboard** to visualize key sales performance indicators, including pipeline value, conversion rates, and tender status for an enterprise client.
- Developed complex **DAX measures** to aggregate and analyse sales data from multiple sources, providing granular insights into customer activity and renewal opportunities.
- Automated ETL processes using **Power Query** to ingest and clean data from various operational systems, ensuring timely and accurate reporting for business stakeholders.

Customer Data Management and Reporting Automation

- Developed **Python scripts** to automate the extraction and transformation of customer data from legacy systems into a structured format for CRM integration.
- Built **REST APIs using Flask** to facilitate data exchange between the CRM and an internal customer analytics platform, improving data consistency across systems.
- Managed data validation and quality checks on over **10,000 customer records**, ensuring accuracy for reporting and customer retention activities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
