HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for core financial transaction processing, handling approximately 4,000 requests per minute.
- Implemented robust data validation and error handling within **Java applications**, reducing downstream data corruption incidents by 22%.
- Engineered **Python scripts** to automate data extraction and transformation tasks from disparate sources, consolidating information for operational reporting.
- Managed and optimized **SQL queries** across PostgreSQL and Oracle databases, improving data retrieval performance for analytical functions by 18%.
- Participated in daily **Agile ceremonies**, including sprint planning and backlog grooming, contributing to accurate technical estimations for new feature development.
- Containerized backend services using **Docker**, facilitating consistent deployment across development and production environments.
- Supported the integration and deployment of **new system configurations** through a formal change-control process, coordinating UAT and post-go-live activities.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Enterprise Application Monitoring and Automation

- Automated log analysis and alert generation for critical enterprise applications using **Python scripting** and **Splunk**, reducing manual monitoring effort by 30%.
- Developed **Java RESTful services** to expose key application metrics for integration into a centralized operational dashboard, enhancing real-time system visibility.
- Contributed to incident response by performing root cause analysis on P1/P2 issues, documenting findings and implementing preventative measures to improve system stability.

Data Pipeline for Operational Insights

- Designed and implemented a **Python ETL pipeline** to extract, transform, and load data from multiple relational databases into a data warehouse for reporting.
- Created interactive **Power BI dashboards** to visualize key performance indicators and operational trends, enabling business stakeholders to make data-informed decisions.
- Applied **SQL** to perform complex data aggregation and validation, ensuring data integrity throughout the pipeline.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
