PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Delivered first-line customer support for e-commerce gateway and acquiring platforms, managing incoming queries via phone, email, and web chat.
- Assisted new merchants with implementation efforts and Day 1 readiness, ensuring they were fully supported from go-live.
- Amended merchant account details and updated configuration settings as required, responding to approximately 50-70 tickets daily.
- Provided standard reports to merchants, including transaction summaries, fees, and settlement information, using internal reporting tools.
- Troubleshot common issues with payment solutions and escalated technical or complex cases to second-line support teams for resolution.
- Tracked and followed up on open support cases, ensuring timely resolution and maintaining high levels of customer satisfaction throughout the process.
- Collaborated with internal stakeholders, including Product and Operations teams, to share customer feedback and ensure alignment on support workflows.

SKILLS

Support – eCommerce gateway, acquiring platforms, technical onboarding, in-life support, customer service, ticket management, escalation handling, documentation, knowledge base articles.

Tools – Jira, Confluence, Splunk, Dynatrace, CloudWatch, Google Workspace (Docs, Sheets, Gmail), Microsoft Office Suite.

Languages – Java, Python, SQL, HTML, XML, CSS.

Frameworks/DBs – Spring Boot, PostgreSQL, MySQL, Oracle.

Cloud/Infra – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Methodologies – Agile, Scrum, Change Management, Incident Response, SLA Management.

PROJECTS

HCL Payments Operations Dashboard Enhancement

- Developed and maintained core features for a financial-services payments operations dashboard, focusing on transaction monitoring and operational alerting for failed payment messages.
- Implemented Python scripts to automate data validation and ETL processes, ensuring data accuracy for reconciliation workflows and reducing manual processing time by 15%.
- Collaborated with business analysts and operations teams to gather requirements, conduct UAT, and provide post-implementation support for system configuration updates.

Customer Onboarding Automation for Enterprise Systems

- Designed and implemented an automated onboarding process for enterprise business systems, integrating with ERP modules and operational platforms.
- Developed REST APIs in Java Spring Boot to facilitate cross-system data flows between interconnected platforms, improving data synchronisation efficiency.
- Managed change control processes for system configuration updates, coordinating UAT and providing post-go-live support across multiple integrated systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
