PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Researched and validated business data for enterprise and small/mid-sized business customers using **web-based maps**, news articles, and official websites, ensuring accuracy and compliance with provided procedures.
- Configured and maintained devices for editing, testing, and documentation purposes, strictly adhering to established operational guidelines and **support protocols**.
- Communicated task progress and potential roadblocks to management, liaising effectively with **cross-functional teams** to ensure seamless workflow integration and timely issue resolution.
- Conducted **phone validations** to verify critical business details, maintaining a high level of accuracy and professionalism during customer interactions.
- Developed Python scripts to automate data extraction and reporting tasks, reducing manual effort for the operations team by approximately **15 hours per week**.
- Managed production incidents for enterprise Java/.NET applications, responding to P1/P2 escalations and performing root cause analysis within strict **SLA targets**.
- Designed and implemented REST APIs using **Java Spring Boot** for internal service integrations, facilitating data exchange across multiple enterprise systems.

SKILLS

Support & Analysis – Technical support, Problem-solving, Data validation, Research, Information analysis, Business data, Web mapping, GIS tools, QGIS, Mac OS X, Phone validation

Communication – Oral communication, Written communication, Stakeholder communication, Management updates, Cross-functional liaison

Programming & Scripting – Python, Java, SQL, Shell scripting

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Linux, Splunk, Dynatrace, Power BI, Tableau

PROJECTS

Enterprise Data Validation Service (HCL Technologies)

- Developed a Python-based service to validate business data against multiple external sources, including official websites and news feeds, improving data accuracy for downstream reporting.
- Integrated the service with **Jira** for automated ticket creation upon data discrepancy detection, streamlining the issue resolution process for operational teams.
- Implemented logging and monitoring using **Splunk**, providing insights into data validation success rates and identifying patterns in data anomalies across enterprise customers.

Automated Reporting for Financial Operations (HCL Technologies)

- Engineered Python scripts to automate the generation of daily operational reports for a financial-services client, consolidating data from PostgreSQL and Oracle databases.
- Designed and built interactive **Power BI** dashboards to visualize key performance indicators and transaction monitoring metrics, enabling stakeholders to quickly assess operational health.
- Managed the deployment and scheduling of reporting scripts using **Jenkins** and cron jobs on Linux servers, ensuring reliable and timely delivery of business insights.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
