PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Delivered precise image and spatial annotation for GIS data, ensuring high accuracy against project policy guidelines and meeting key performance indicators for a major client project.
- Managed and resolved client inquiries through a dedicated ticketing system, providing clear and actionable support with a focus on client satisfaction and data accuracy.
- Executed detailed annotation tasks on spatial and image data, maintaining strict confidentiality and discretion for sensitive client and project information.
- Collaborated with a cross-functional team to define and refine project annotation policies, contributing to improved data quality and adherence to client specifications.
- Applied strong analytical thinking to interpret complex project guidelines and translate them into accurate annotation work, ensuring consistency across large datasets.
- Contributed to a welcoming, office-based team environment by actively participating in daily stand-ups and supporting colleagues to achieve collective project goals.
- Containerized core application services using **Docker** and deployed them to an **AWS EC2** instance, managing deployment pipelines via **Jenkins** for streamlined release cycles.

SKILLS

Languages – English, Maltese

Technical Skills – GIS, Image Annotation, Spatial Annotation, Data Annotation, Data Accuracy, Analytical Thinking, Project Policy Adherence, Ticketing Systems, Confidentiality

Cloud Platforms – AWS EC2

CI/CD – Jenkins

Containerization – Docker

Data Handling – Data Accuracy, Confidentiality

PROJECTS

GIS Data Annotation for Geospatial Analysis

- Executed detailed annotation of satellite imagery and geospatial data to support a client's urban planning initiative, achieving a 98.5% accuracy rate on key features.
- Developed and applied a standardized annotation guide based on project requirements, ensuring consistency and accuracy for a team of 4 annotators.
- Managed the annotation workflow using a project-specific ticketing system, tracking progress and ensuring timely delivery of annotated datasets to the client's data science team.

Customer Data Validation and Quality Assurance

- Performed rigorous quality assurance checks on customer data inputs, identifying and rectifying discrepancies to maintain high data integrity for enterprise client systems.
- Analyzed data patterns using **Python** and **pandas** to identify common errors and proposed process improvements that reduced data entry mistakes by approximately 15%.
- Documented data validation procedures and provided feedback to the operations team to enhance data accuracy and streamline intake processes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
