HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and tuned **time-series forecasting models** (ARIMA, exponential smoothing) using **R** and **Python** to predict 1:1 support volumes, achieving an average forecast accuracy of **92%** on held-out data.
- Managed an internal operations hub responsible for daily forecasting execution, ensuring **pipeline integrity** by troubleshooting complex errors and validating system configurations.
- Monitored model health and forecast accuracy, conducting root-cause analysis on variances and implementing methodology adjustments that improved prediction fidelity by **~8%**.
- Partnered with cross-functional business and operational teams to gather forecasting inputs and deliver actionable outputs that informed critical **staffing and capacity decisions** for an organization of ~1,200 personnel.
- Created and integrated **LLM-based solutions** to automate analytical workflows within support operations and forecasting pipelines, reducing manual processing time by **~15%**.
- Designed and implemented **Python scripts** for ETL processes, data validation, and scheduled reporting, supporting a financial-services client's operational dashboard by processing approximately **50,000 transactions** daily.
- Supported production environments with strict SLAs and audit trails, performing **incident response** and triage for P1/P2 issues impacting critical financial operations systems.

SKILLS

Data Science & ML – Time-series forecasting, ARIMA, Exponential Smoothing, Machine Learning, Scikit-learn, Python, R, Statistical Analysis, Data Modelling, Forecasting, Capacity Planning, A/B Testing

Programming & Scripting – Python, R, SQL, Java, Spring Boot, Shell Scripting

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins, CI/CD, Incident Response, SLA Management, Observability, Dynatrace, Splunk

Databases – PostgreSQL, MySQL, Oracle, SQL Querying, Data Warehousing

BI & Visualization – Power BI, Tableau, DAX, Power Query, Data Visualization

Business & Operations – Operational Process Execution, Cross-functional Program Management, Vendor Management, Workforce Management, Support Operations Metrics, Change Management

PROJECTS

Operational Forecasting Model Enhancement (HCL Technologies)

- Developed and refined **time-series forecasting models** using Python (pandas, scikit-learn) and R to predict support volumes for a financial operations dashboard, improving forecast accuracy by **~5%**.
- Engineered data pipelines to ingest and transform operational metrics (e.g., ticket volumes, handling times) from multiple sources into a unified dataset for model training and validation.
- Implemented automated reporting of forecast accuracy metrics and variance analysis, enabling operations teams to adjust staffing strategies proactively.

LLM-Powered Workflow Automation for Support Hub (HCL Technologies)

- Designed and built a proof-of-concept **LLM-based solution** using Python and a Generative AI API to automate the summarization of complex support tickets and generate initial response drafts, reducing average handling time by **~12%**.
- Integrated the LLM component with existing internal tools via REST APIs, ensuring seamless data flow and user experience for support agents.
- Documented the system architecture, deployment process, and usage guidelines for adoption by the wider operations hub.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
