PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed digital marketing activity for two automotive brands, ensuring product information, offers, and campaign content were accurate and current across multiple websites.
- Developed website content and features in line with brand identity and marketing objectives, coordinating with manufacturer digital teams and external providers for updates and new functionality.
- Optimised paid digital campaigns, including PPC and Google Ads, in conjunction with media agencies, monitoring performance, lead quality, and cost per lead to maximise effectiveness.
- Planned and oversaw delivery of email campaigns and customer communications, managing database quality and mailing lists in line with **GDPR** requirements and reporting on campaign performance.
- Kept mobile applications for connected services up-to-date and led new feature rollouts for services such as in-car infotainment and diagnostics.
- Coordinated customer surveys across two brands, analysing results and sharing key performance indicators (KPIs) with dealers and internal teams.
- Analyzed website, paid media, and CRM performance using **Google Analytics 4** and other reporting tools, producing regular reports with clear insights and practical recommendations for improvement.

PROJECTS

Automotive Brand Website & Campaign Management

- Managed content updates and product information for two automotive brand websites, ensuring all offers and campaign materials were current and aligned with brand guidelines.
- Developed and implemented new website features to support product launches and marketing objectives, coordinating with external agencies for technical implementation and testing.
- Monitored website traffic and user engagement using **Google Analytics**, generating weekly performance reports for the marketing team with actionable insights on content effectiveness.

Email Campaign Automation & CRM Data Quality Initiative

- Designed and executed targeted email marketing campaigns for customer retention and new product announcements, ensuring compliance with **GDPR** data handling policies.
- Improved database quality by implementing a data cleansing process for customer mailing lists, reducing bounce rates by **18%** over a six-month period.
- Collaborated with CRM providers to troubleshoot integration issues and support timely campaign activation, reporting on key metrics such as open rates and click-through rates.
