PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed hotel pricing data and market trends to identify opportunities for revenue optimization, presenting findings to senior management.
- Developed and maintained regular performance reports using **Power BI**, tracking key metrics related to occupancy, average daily rate (ADR), and revenue per available room (RevPAR).
- Collaborated with hotel operations teams to gather requirements for new reporting features, translating business needs into actionable data insights.
- Automated data extraction and transformation processes for daily performance reporting using **Python** and **SQL**, reducing manual effort by an estimated **15%**.
- Supported **Java Spring Boot** backend services by fixing bugs and implementing minor feature enhancements, ensuring application stability.
- Managed production incidents for enterprise applications, performing root cause analysis and coordinating resolutions to meet SLA targets.
- Containerized a Java application using **Docker** and deployed it to an **AWS EC2** instance, establishing basic CI/CD with **Jenkins**.

SKILLS

BI & Reporting – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence

Programming & Scripting – Python, Java, SQL, R, pandas, NumPy, scikit-learn

Backend Frameworks – Spring Boot, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Data Analysis & Modelling – Statistical Analysis, ETL, Data Warehousing, A/B Testing, Time-Series Analysis

Enterprise Systems – ERP Integration Support, Change Management, Payments Operations Dashboard, Transaction Monitoring

PROJECTS

Hotel Revenue Analytics Dashboard

- Designed and built an interactive **Power BI** dashboard to visualize key hotel performance indicators, including occupancy rates, average daily rates, and RevPAR across multiple properties.
- Developed **DAX** measures for complex calculations and performed data modeling to ensure efficient report generation for business stakeholders.
- Automated data ingestion from various sources into a central data warehouse using **Python** scripts, streamlining the reporting workflow.

Automated Financial Reporting Pipeline

- Engineered a **Python**-based data pipeline to extract, transform, and load financial transaction data from PostgreSQL databases.
- Implemented data validation checks and reconciliation logic within the pipeline to ensure data accuracy for month-end reporting.
- Scheduled and monitored the pipeline execution using cron jobs on a **Linux** server, ensuring timely delivery of reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
