PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed **pricing, competitor pricing, demand trends, and market conditions** for a portfolio of hotels to provide data-driven revenue recommendations.
- Prepared comprehensive **daily, weekly, and monthly performance reports** for client hotels, highlighting key revenue drivers and areas for improvement.
- Supported forecasting efforts for **occupancy and revenue performance**, contributing to strategic planning and resource allocation.
- Developed and maintained strong collaborative relationships with client hotels, facilitating clear communication on commercial strategies.
- Contributed insights and findings during regular **revenue team meetings and client discussions**, supporting aligned commercial objectives.
- Assisted in the implementation of **revenue management strategies**, focusing on maximizing revenue and market share for assigned hotel properties.
- Managed the **analysis of booking pace and demand fluctuations** to inform pricing adjustments and optimize room inventory allocation.

SKILLS

Revenue Management – Pricing Strategy, Demand Forecasting, Competitor Analysis, Market Trends, Occupancy Forecasting, Revenue Maximization, Market Share Analysis.

Data Analysis – Analytical Tools, Data-Driven Recommendations, Performance Reporting, Excel, Problem-Solving, Attention to Detail.

Business Operations – Commercial Decision-Making, Teamwork, Communication Skills, Report Preparation, Stakeholder Management.

Hospitality Domain – Front Office Operations, Front Desk Experience, Hospitality Management.

Technical Skills – Microsoft Excel, Analytical Tools.

PROJECTS

Hotel Revenue Optimization Analysis (MSc Project)

- Developed a comprehensive analysis of historical booking data and market trends for a selection of hotels to identify key revenue drivers.
- Built interactive **Power BI dashboards** to visualize occupancy rates, pricing fluctuations, and competitor performance, enabling data-driven strategic insights.
- Generated detailed reports on demand patterns and recommended pricing adjustments to maximize revenue and occupancy for the target properties.

Client Performance Reporting Automation (HCL Technologies)

- Automated the generation of **daily and weekly performance reports** for financial services clients using Python scripting, reducing manual effort by approximately **40%**.
- Extracted and transformed data from **PostgreSQL** databases to populate reports, ensuring data accuracy and integrity for critical operational metrics.
- Collaborated with business analysts to refine reporting requirements and deliver actionable insights that supported client operational decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
