PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided technical support to customers and internal teams, responding to daily calls and inbox inquiries regarding electrical distribution systems and product specifications.
- Translated technical specifications, schematics, and electrical distribution designs into accurate technical solutions and bills of materials for panel builders.
- Contributed to market analysis for low-voltage distribution and energy management, reinforcing the company's position in emerging smart-building markets.
- Supported product launches and promotional initiatives by preparing technical documentation and engaging with customer sites and industry events.
- Collaborated with sales and technical teams to identify market opportunities and strengthen specification influence across commercial, industrial, and residential segments.
- Managed daily communications and escalated technical issues from customers, contractors, and sales teams to the Technical Function Lead.
- Developed and maintained technical documentation and customer-facing guides to support product usage and troubleshooting for electrical distribution systems.

SKILLS

Domain Knowledge – Low-voltage electrical distribution systems, Electrical distribution designs, Energy management, Smart buildings, EV infrastructure

Technical Skills – Schematics interpretation, Bill of Materials generation, Technical specification analysis, Product support

Customer Interaction – Customer support, Stakeholder communication, Sales team collaboration, Contractor engagement

Software Proficiency – Microsoft Excel, Microsoft PowerPoint, Microsoft Office Suite

Methodologies – Agile, Scrum

PROJECTS

Customer Technical Solution Design for Electrical Distribution

- Designed comprehensive technical solutions and detailed bills of materials based on customer specifications and electrical schematics for a portfolio of 15+ projects.
- Translated complex building services designs into actionable technical proposals, improving clarity for panel builders and reducing integration errors by approximately 18%.
- Provided post-design technical consultation to customers, addressing integration challenges and clarifying product application within their specific electrical distribution frameworks.

Smart Building Technology Market Analysis & Support

- Analyzed market trends and competitor offerings in energy management and smart building technologies to inform strategic positioning for the sales team.
- Developed presentation materials and technical overviews for product launches, highlighting key features and benefits for commercial and residential segments.
- Assisted in customer engagement initiatives by providing technical insights during site visits and industry events, fostering relationships with contractors and consultants.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
