PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed operational data collection, validation, and maintenance for workforce attendance, training, and compliance records across two healthcare service locations, ensuring data integrity for reporting.
- Developed and maintained advanced **Excel dashboards**, KPI trackers, and performance scorecards to visualize key operational metrics and trends.
- Prepared accurate **weekly, monthly, and ad hoc reports** for site management and Head Office, synthesizing data from multiple operational systems.
- Analyzed operational information to identify trends and investigate discrepancies, presenting findings and actionable recommendations to support data-driven decision-making.
- Reviewed and enhanced existing reporting procedures, identifying inefficiencies and implementing practical process improvements to streamline data flow and analysis.
- Maintained accurate information across multiple **databases and operational systems**, supporting the transition to more efficient digital processes and workflows.
- Coordinated reporting requirements with site management and Head Office teams, ensuring consistent information sharing and supporting governance meetings through documentation.

SKILLS

Data Management – Data Collection, Data Validation, Data Maintenance, Database Management, Information Systems

Reporting & Analysis – Management Reporting, KPI Tracking, Performance Scorecards, Trend Analysis, Discrepancy Investigation, Business Intelligence

Process Improvement – Process Review, Efficiency Identification, Workflow Optimization, Digital Processes

Tools & Technologies – Advanced Microsoft Excel, Pivot Tables, Complex Formulas, Lookups, Charts, Data Validation, Microsoft 365

Core Competencies – Organisational Skills, Attention to Detail, Deadline Management, Written Communication, Verbal Communication, Stakeholder Coordination, Independent Work, Problem-Solving

PROJECTS

Healthcare Operations Reporting System (HCL Technologies)

- Designed and implemented a comprehensive reporting system for operational data across multiple healthcare sites, integrating data from various attendance and compliance logs.
- Developed a suite of **advanced Excel dashboards** and automated reports using **complex formulas and pivot tables** to track key performance indicators for site managers.
- Collaborated with site operations teams to gather reporting requirements and validate data accuracy, ensuring the system met critical business needs for decision support.

Process Improvement Dashboard for Enterprise Systems (HCL Technologies)

- Created a **Power BI dashboard** to monitor and analyze performance metrics for enterprise resource planning (ERP) systems, identifying bottlenecks and areas for optimization.
- Applied **data modelling and DAX measures** to transform raw system logs into actionable insights on system uptime, transaction volumes, and error rates.
- Presented findings and recommendations to operations and business stakeholders, leading to the implementation of targeted process improvements that reduced system latency by approximately 15%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
