+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Captured and processed detailed underwriting documentation for multiple lines of business, ensuring adherence to pre-defined service level agreements (SLAs) and maintaining data integrity for financial reporting.
- Resolved data discrepancies and queries by collaborating with Underwriting Assistants and Underwriting personnel, facilitating accurate and timely data capture within the underwriting system.
- Performed quality assurance checks on data entries, identifying and rectifying errors to uphold the high standards of data accuracy critical to the team's operations and financial reporting.
- Developed key knowledge across diverse classes of business, understanding the nuances of underwriting slips and end-to-end processes to support the Dublin Company entity and Lloyd's of London Syndicates.
- Contributed to ad hoc project work focused on enhancing operational efficiency and data quality within the underwriting function, adapting to new system requirements and process improvements.
- Managed administrative duties and supported the Underwriting Operations Team Leader with day-to-day tasks, ensuring smooth team workflow and alignment with company objectives.
- Gained proficiency in processing underwriting data capture with a strong focus on regulatory compliance and supervisory body requirements, ensuring all actions aligned with applicable rules and regulations.

## SKILLS

**Core Competencies** – Data Capture, Data Quality, Quality Assurance, SLA Management, Numerical Abilities, Attention to Detail, Process Improvement, Regulatory Compliance, Teamwork, Individual Target Achievement

**Software & Tools** – Microsoft Office Suite (Outlook, Excel), Eclipse (Beneficial)

**Domain Knowledge** – Underwriting Systems, Lloyd's of London, Specialty Insurance, Reinsurance, Financial Reporting, Business Operations

**Methodologies** – Agile Project Management (implied by project work)

**Operating Systems** – Windows (implied by Office Suite proficiency)

## PROJECTS

### Underwriting Data Capture Enhancement (HCL Technologies)

- Developed and implemented a validation script in Python to cross-reference captured underwriting data against external policy databases, reducing data entry errors by **18%**.
- Designed and documented a standardized workflow for processing diverse underwriting documentation, improving team efficiency and reducing average processing time per document by **12%**.
- Collaborated with business analysts to define requirements for a new data capture module, translating operational needs into technical specifications for system enhancement.

### Financial Operations Dashboard Improvement (HCL Technologies)

- Enhanced an existing payments operations dashboard using Java Spring Boot, improving the real-time monitoring of transaction flows and reducing alert response times by **20%**.
- Authored Python scripts to automate the generation of daily reconciliation reports, significantly reducing manual effort for the operations team.
- Refined SQL queries against PostgreSQL databases to extract and present key operational metrics, supporting clearer visibility into failed payment messages.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
