PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and automated lead enrichment workflows using **Clay** and integrated data providers like **ZoomInfo**, processing approximately 5,000 new leads daily to power inbound and outbound pipeline generation.
- Configured and optimized **Zendesk** for a 75-person support team, implementing custom ticket routing rules, triggers, and SLA policies that reduced average response times by 18%.
- Managed **Salesforce** configuration for the GTM funnel, including lead scoring models, custom object data flows, and automation rules via **Flows**, supporting a 40% increase in qualified leads quarter-over-quarter.
- Developed and maintained **AI agents** using **Claude** for automated data quality checks and AI-powered triage of customer support tickets, eliminating manual review for over 60% of incoming requests.
- Integrated GTM and CS tools with the broader enterprise ecosystem, building data pipelines that ensured a unified customer view across **Salesforce**, **Zendesk**, and internal product data platforms.
- Documented comprehensive system architecture, workflow diagrams, and process guides for GTM systems, enabling a 25% faster onboarding for new team members and ensuring scalable maintenance.
- Implemented **API integrations** and webhooks to connect disparate GTM and CS platforms, facilitating seamless data exchange and a centralized view of customer lifecycle stages.

SKILLS

GTM Systems Administration – Salesforce, Zendesk, Clay, ZoomInfo, Cognism, Apollo, Clearbit, HubSpot, Marketo

AI/Automation Tools – Claude, ChatGPT, AI Agents, LLM-powered workflows, Prompt Engineering

Salesforce Configuration – Flows, Validation Rules, Custom Objects, Lead Routing, Account Hierarchy, Reporting

Zendesk Administration – Ticket Routing, Triggers, Automations, Macros, SLA Policies, Agent Workspace

Data & Integrations – APIs, Webhooks, iPaaS (Workato, Zapier), SQL, Python scripting

Core Technologies – GTM Systems, RevOps, Growth Ops, Support Ops, Data Quality, Compliance, Documentation

PROJECTS

AI-Powered Lead Enrichment and Routing System

- Engineered an automated system utilizing **Clay AI** and **ZoomInfo** data to enrich leads, applying LLM-powered sentiment analysis to identify high-intent prospects and route them to the appropriate sales pod.
- Developed Python scripts to orchestrate data flows between enrichment tools and **Salesforce**, ensuring real-time updates and maintaining data hygiene for over 15,000 new contacts weekly.
- Built custom **Zendesk** triggers and automations that automatically created follow-up tasks for sales development representatives based on lead score and engagement signals from the enrichment process.

Customer Support Platform Optimization with AI Triage

- Designed and implemented an AI-driven triage system within **Zendesk**, using **Claude** to categorize incoming support tickets, flag urgent issues based on keywords, and assign them to specialized support queues.
- Reduced manual ticket classification workload by an estimated 40% by building AI agents that processed ~2,000 tickets per week, improving initial response times for critical customer issues.
- Developed comprehensive documentation and runbooks for the AI triage system, enabling the support operations team to monitor performance and troubleshoot issues effectively.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
