PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed quarterly sales compensation calculations, including processing commissions, SPIFFs, accelerators, and draws in adherence to plan terms, ensuring accurate and timely payouts for the Go-To-Market team.
- Validated and reconciled sales data across **Salesforce** and **CaptivateIQ**, preparing detailed reports on earnings, attainment trends, and payout distributions for finance and sales leadership.
- Responded to and resolved sales compensation inquiries and disputes, acting as the primary point of contact for the GTM team to clarify plan mechanics and address exception requests.
- Supported the administration and maintenance of **CaptivateIQ**, our sales compensation system, by documenting business processes and identifying opportunities for automation and control improvements.
- Collaborated cross-functionally with Sales, Finance, and RevOps teams to translate complex compensation plans into operational execution, ensuring alignment and clear communication.
- Gathered documentation and assisted in preparing responses for financial system auditors, maintaining rigorous controls and audit trails for compensation-related data.
- Containerized internal data processing scripts using **Docker** and deployed them to **AWS Lambda**, enabling on-demand execution for irregular reporting tasks and reducing manual intervention time by approximately 40%.

SKILLS

Sales Compensation – Commissions, SPIFFs, Accelerators, Draws, Quotas, Payouts, Plan Administration

CRM & Sales Tools – Salesforce, CaptivateIQ

Data Analysis & Reporting – Excel (Advanced), Pivot Tables, Lookups, Data Reconciliation, Trend Analysis, Earnings Reports

Cloud & Automation – AWS Lambda, Docker, Python Scripting

Business Operations – RevOps, Finance, Go-To-Market Support, Process Documentation, Auditor Support

Core Technologies – SQL, Java, Spring Boot, REST APIs, Git, Jenkins

PROJECTS

Sales Compensation Plan Automation Tool (HCL Technologies)

- Developed a Python-based tool to automate the generation of sales compensation plan letters and payout statements, reducing manual effort by **~30%** for a team of 15 sales representatives.
- Integrated the tool with an internal data store via **SQLAlchemy** to pull historical performance data, ensuring accurate calculation of accelerators and commission tiers.
- Designed a simple command-line interface for users to input plan parameters and generate customized documentation, improving efficiency and consistency in payout communication.

Automated Financial Reporting Pipeline (HCL Technologies)

- Engineered an automated reporting pipeline using **Python** and **Pandas** to extract, transform, and load financial transaction data from PostgreSQL into a data warehouse for daily reporting.
- Implemented data validation checks within the pipeline to ensure data integrity, catching approximately **15-20** data discrepancies per week before they impacted downstream reports.
- Scheduled and monitored the pipeline execution using **Jenkins**, ensuring reliable delivery of daily operational reports to business analysts and finance teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
