PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Served as the primary technical point of contact for **enterprise customers**, translating complex technical requirements for AI output quality and **API integrations** into actionable support plans.
- Owned and resolved intricate technical issues, including **login/SSO problems**, **authentication token failures**, and analyzing **error logs** within Datadog, tracing each to root cause.
- Investigated customer-reported incidents using tools like **Datadog (RUM)** and **Snowflake**, correlating user session data with backend logs to identify systemic issues.
- Collaborated with engineering teams to diagnose and fix bugs in the core AI platform, contributing to a **15% reduction** in recurring ticket escalations for AI output anomalies.
- Developed and refined support documentation, including **FAQs and knowledge base articles**, which improved self-service resolution rates for common technical queries by approximately **20%**.
- Provided timely and empathetic responses to customer inquiries via **Zendesk**, managing multiple open tickets concurrently and ensuring adherence to service level objectives.
- Containerized internal support tooling using **Docker** and deployed them on **AWS EC2** instances, streamlining the setup process for new support team members and reducing onboarding time by **3 days**.

SKILLS

Customer Support Tools – Datadog, Omni, Snowflake, Auth0, Zendesk

Technical Skills – REST API Integrations, Authentication, Tokens, Error Logs, Troubleshooting, Root Cause Analysis

AI/ML Concepts – AI Output Quality, LLM Support

Cloud & Containerization – AWS (EC2, CloudWatch), Docker

Programming & Scripting – Python, SQL

Methodologies – Agile, White Glove Support

PROJECTS

Customer Onboarding & Integration Support

- Developed a comprehensive onboarding guide for new enterprise customers integrating with the AI platform, detailing API usage and authentication flows.
- Provided post-sales technical assistance to three key clients, helping them integrate the platform's AI capabilities into their existing workflows and troubleshoot initial setup issues.
- Authored detailed technical documentation and ran two training sessions for customer engineering teams on best practices for API utilization and error handling, improving their integration success rate by **~30%**.

Technical Issue Triage & Resolution Framework

- Designed and implemented a structured triage process for technical support tickets, incorporating analysis of **Datadog RUM data** and relevant error logs.
- Created a Python script to automate initial data collection for common support issues, reducing average time-to-diagnosis by approximately **18%** for recurring problems.
- Maintained an internal knowledge base of common issues and their resolutions, contributing 25+ articles that were referenced by team members during incident response.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
