HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured **Syncade Equipment Management** and **Material Management** modules to align with GMP manufacturing process requirements, supporting site-wide lean manufacturing goals.
- Developed **MES recipes** in line with corporate standards, ensuring system content accurately reflected process specifications for pharmaceutical production.
- Collaborated with Manufacturing, Quality, and Automation teams to troubleshoot and resolve production issues within a regulated GMP environment, ensuring continuous operations.
- Managed system administration for the MES platform, including user access control and configuration updates, maintaining operational integrity.
- Provided support for interfaces between the MES system and other enterprise platforms such as **SAP** and **LIMS**, ensuring seamless data flow.
- Authored and maintained **MES design documentation** and validation protocols, supporting computer system validation activities for system changes.
- Developed **Python scripts** to automate data extraction and reporting from manufacturing systems, reducing manual effort by approximately **15%**.

SKILLS

MES Systems – Emerson Syncade, MES Recipe Authoring, Equipment Management, Material Management, Reporting, Inventory Management

Integrations – SAP, LIMS, DeltaV

Development & Scripting – Visual Basic, Python

Databases – Microsoft SQL Server, PostgreSQL

Environments – GMP, Pharmaceutical Manufacturing, Biotechnology

Methodologies – Agile, Computer System Validation

Cloud & Tools – AWS, Docker, Jenkins, Jira, Confluence

PROJECTS

MES Recipe Development for Pharmaceutical Production

- Developed and configured **MES recipes** for a new pharmaceutical product line, ensuring adherence to strict GMP guidelines and corporate standards.
- Collaborated with process engineers and quality assurance teams to define and implement recipe logic, directly impacting product quality and batch consistency.
- Supported the testing and validation of MES configurations, contributing to successful system sign-off for production readiness.

Manufacturing Data Automation and Reporting

- Engineered **Python scripts** to extract and transform data from the MES and associated databases, creating custom reports for operational performance analysis.
- Designed and implemented automated data pipelines that consolidated information from multiple sources, improving data accessibility for manufacturing stakeholders by an estimated **20%**.
- Utilized **SQL** for data querying and validation, ensuring the accuracy and integrity of the generated reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
