PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland Jul 2026 – Present

- Review and action user-generated content and account reports against a large-scale online platform's **community standards** and policies.
- Investigate escalated abuse cases, including harassment, hate speech, scams, and graphic content, documenting enforcement decisions.
- Identify and flag emerging **abuse trends** through detailed analysis of user-reported content and platform activity.
- Achieve and maintain high standards for quality, calibration, accuracy, and productivity targets in content review and policy enforcement.

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Develop and maintain enterprise Java applications, implementing REST APIs to support data integration and system interactions.
- Write SQL queries for data validation and analysis, supporting investigations into transactional anomalies and system behavior.
- Contribute to feature development and bug fixes within Java Spring Boot services, ensuring application stability and adherence to requirements.
- Manage production support for enterprise applications, responding to P1/P2 incidents and maintaining strict SLA adherence.
- Monitor application health and performance using tools like Splunk and Dynatrace, identifying and troubleshooting operational issues.
- Document incident responses and resolution steps in runbooks, ensuring clear communication with stakeholders during outages.
- Process and escalate issues via ServiceNow, collaborating with cross-functional teams for timely resolution and system stability.

SKILLS

Trust & Safety – Policy enforcement, community guidelines, content review, risk assessment, escalations, abuse trends, audit-readiness, product-compliance documentation.

Technical Writing – Audit-evidence collection and management, technical documentation.

Data Analysis & BI – Power BI, Tableau, R, Python (pandas, NumPy, scikit-learn), SQL, data warehousing, ETL, statistical methods, A/B testing.

Software Development – Java Spring Boot, REST APIs, Python scripting, Docker, Linux.

Operations & Support – Incident management, SLA management, Splunk, Dynatrace, Jira, Confluence, change-control management.

PROJECTS

Financial Transaction Anomaly Detection (MSc Data Analytics)

- Developed Python scripts using pandas and scikit-learn to analyze transaction data, identifying patterns indicative of potential fraud or policy violations.
- Created Power BI dashboards to visualize transaction flows and highlight anomalies, facilitating risk assessment for business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
